This practice manual has been prepared by the faculty of the Board of Studies. The objective of the practice manual is to provide teaching material to the students to enable them to obtain knowledge and skills in the subject. Students should also supplement their study by reference to the recommended text books. In case students need any clarifications or have any suggestions to make for further improvement of the material contained herein, they may write to the Director of Studies.

All care has been taken to provide interpretations and discussions in a manner useful for the students. However, the practice manual has not been specifically discussed by the Council of the Institute or any of its Committees and the views expressed herein may not be taken to necessarily represent the views of the Council or any of its Committees.

A WORD ABOUT PRACTICE MANUAL

The Board of Studies has been instrumental in imparting theoretical education to the students of Chartered Accountancy Course. The distinctive characteristics of the course i.e. distance education has emphasized the need for bridging the gap between the students and the Institute and for this purpose, the Board of Studies has been providing a variety of educational inputs for the students. Bringing out a series of subject wise Practice Manuals is one of the quality services provided by the Institute. These Practice Manuals are highly useful to the students preparing for the examination, since they get answers for all important questions relating to a subject at one place and that too grouped chapter-wise.

The Practice Manual in the subject of 'Accounting' is divided into fifteen chapters in line with Volume I of the study material. This will help the students to correlate the Practice Manual with the Study Material and facilitate in complete revision of each chapter. The students are expected to cover the entire syllabus and also do practice on their own while going through the practice manual. Exercises have been given at the end of each topic for independent practice. Practice Manual includes questions from past examinations at PE-II, PCC and IPCC levels which would facilitate in thorough understanding of the chapters explained in the study material volume I. Few questions have been added in some of the chapters to increase the practice base of the students.

New theoretical/case study based questions added in this edition of the practice manual have been highlighted in bold and italics while practical questions are indicated in grey background for easy identification. This Practice Manual contains a matrix showing the analysis of the past examinations. This matrix will help the students in getting an idea about the trend of questions being asked and relative weightage of each topic in the past examinations. It will serve as a useful and handy reference guide while preparing for the examination. It will guide the students to improve their performance in the examination and also help them to work upon their grey areas and plan a strategy to tackle practical problems.

Feedback form is given at the end of this Practice Manual wherein students are encouraged to give their feedback/suggestions. The concerned faculty members of Board of Studies have put in their best efforts in making this practice manual lucid and student-friendly. In case you need any clarification/guidance, you may send your queries at seema@icai.in; shilpa@icai.in and asha.verma@icai.in.

Happy Reading and Best Wishes!

Accounting Standards

BASIC CONCEPTS

Accounting Standards (ASs) are written policy documents issued by expert accounting body or by government or other regulatory body covering the aspects of recognition, measurement, presentation and disclosure of accounting transactions in the financial statements. Accounting Standards 1, 2, 3, 6, 7, 9, 10, 13 and 14 are covered in this paper.

Applicability of Accounting Standards

Question 1

List the criteria to be applied for rating a non-corporate entity as Level-I entity for the purpose of compliance of Accounting Standards in India.

Answer

Non-corporate entities which fall in any one or more of the following categories, at the end of the relevant accounting period, are classified as Level I entities:

- (i) Entities whose equity or debt securities are listed or are in the process of listing on any stock exchange, whether in India or outside India.
- (ii) Banks (including co-operative banks), financial institutions or entities carrying on insurance business.
- (iii) All commercial, industrial and business reporting entities, whose turnover (excluding other income) exceeds rupees fifty crore in the immediately preceding accounting year.
- (iv) All commercial, industrial and business reporting entities having borrowings (including public deposits) in excess of rupees ten crore at any time during the immediately preceding accounting year.
- (v) Holding and subsidiary entities of any one of the above.

Question 2

List the criteria to be applied for rating a non-corporate entity as Level-II entity for the purpose of compliance of Accounting Standards in India.

1.2 Accounting

Answer

Non-corporate entities which are not level I entities but fall in any one or more of the following categories are classified as level II entities:

- (i) All commercial, industrial and business reporting entities, whose turnover (excluding other income) exceeds rupees one crore* but does not exceed rupees fifty crore in the immediately preceding accounting year.*
- (ii) All commercial, industrial and business reporting entities having borrowings (including public deposits) in excess of rupees one crore but not in excess of rupees ten crore at any time during the immediately preceding accounting year.*
- (iii) Holding and subsidiary entities of any one of the above.*

AS 1 "Disclosure of Accounting Policies"

Question 3

Mention few areas in which different accounting policies are followed by companies.

Answer

Following are the examples of the areas in which different accounting policies may be adopted by different enterprises:

- (i) Methods of depreciation, depletion and amortisation.
- (ii) Valuation of inventories.
- (iii) Methods of valuing goodwill.
- (iv) Valuation of investments.

AS 2 "Valuation of Inventories"

Question 4

"In determining the cost of inventories, it is appropriate to exclude certain costs and recognize them as expenses in the period in which they are incurred". Provide examples of such costs as per AS 2 'Valuation of Inventories'.

Answer

As per AS 2 'Valuation of Inventories', certain costs are excluded from the cost of the inventories and are recognised as expenses in the period in which incurred. Examples of such costs are:

- (a) abnormal amount of wasted materials, labour, or other production costs;*

** This change is made as per the announcement 'Revision in the criteria for classifying Level II non-corporate entities' issued by the ASB on 7.3.2013. This revision is applicable with effect from the accounting year commencing on or after April 01, 2012.*

- (b) storage costs, unless those costs are necessary in the production process prior to a further production stage;
- (c) administrative overheads that do not contribute to bringing the inventories to their present location and condition; and
- (d) selling and distribution costs.

Question 5

The company deals in three products, A, B and C, which are neither similar nor interchangeable. At the time of closing of its account for the year 2010-11, the Historical Cost and Net Realizable Value of the items of closing stock are determined as follows:

Items	Historical Cost (₹ in lakhs)	Net Realisable Value (₹ in lakhs)
A	40	28
B	32	32
C	16	24

What will be the value of closing stock?

Answer

As per para 5 of AS 2 on 'Valuation of Inventories', inventories should be valued at the lower of cost and net realizable value. Inventories should be written down to net realizable value on an item-by-item basis in the given case.

Items	Historical Cost (₹ in lakhs)	Net Realisable Value (₹ in lakhs)	Valuation of closing stock (₹ in lakhs)
A	40	28	28
B	32	32	32
C	<u>16</u>	<u>24</u>	<u>16</u>
	<u>88</u>	<u>84</u>	<u>76</u>

Hence, closing stock will be valued at ₹ 76 lakhs.

Question 6

X Co. Limited purchased goods at the cost of ₹ 40 lakhs in October, 2010. Till March, 2011, 75% of the stocks were sold. The company wants to disclose closing stock at ₹ 10 lakhs. The expected sale value is ₹ 11 lakhs and a commission at 10% on sale is payable to the agent. Advise, what is the correct closing stock to be disclosed as at 31.3.2011.

Answer

As per para 5 of AS 2 "Valuation of Inventories", the inventories are to be valued at lower of cost and net realizable value.

1.4 Accounting

In this case, the cost of inventory is ₹ 10 lakhs. The net realizable value is $11,00,000 \times 90\% = ₹ 9,90,000$. So, the stock should be valued at ₹ 9,90,000.

Question 7

The company X Ltd., has to pay for delay in cotton clearing charges. The company up to 31.3.2010 has included such charges in the valuation of closing stock. This being in the nature of interest, X Ltd. decided to exclude such charges from closing stock for the year 2010-11. This would result in decrease in profit by ₹ 5 lakhs. Comment.

Answer

As per para 12 of AS 2 (revised), interest and other borrowing costs are usually considered as not relating to bringing the inventories to their present location and condition and are therefore, usually not included in the cost of inventories. However, X Ltd. was in practice to charge the cost for delay in cotton clearing in the closing stock. As X Ltd. decided to change this valuation procedure of closing stock, this treatment will be considered as a change in accounting policy and such fact to be disclosed as per AS 1. Therefore, any change in amount mentioned in financial statement, which will affect the financial position of the company should be disclosed properly as per AS 1, AS 2 and AS 5.

Also a note should be given in the annual accounts that, had the company followed earlier system of valuation of closing stock, the profit before tax would have been higher by ₹ 5 lakhs.

Question 8

In a production process, normal waste is 5% of input. 5,000 MT of input were put in process resulting in wastage of 300 MT. Cost per MT of input is ₹ 1,000. The entire quantity of waste is on stock at the year end. State with reference to Accounting Standard, how will you value the inventories in this case?

Answer

As per para 13 of AS 2 (Revised), abnormal amounts of wasted materials, labour and other production costs are excluded from cost of inventories and such costs are recognized as expenses in the period in which they are incurred.

In this case, normal waste is 250 MT and abnormal waste is 50 MT.

The cost of 250 MT will be included in determining the cost of inventories (finished goods) at the year end. The cost of abnormal waste amounting to ₹ 50,000 (50 MT × ₹ 1,000) will be charged to the profit and loss statement.

Question 9

You are required to value the inventory per kg of finished goods consisting of:

	₹ per kg.
Material cost	200
Direct labour	40
Direct variable overhead	20

Fixed production charges for the year on normal working capacity of 2 lakh kgs is ₹ 20 lakhs. 4,000 kgs of finished goods are in stock at the year end.

Answer

In accordance with paras 8 & 9 of AS 2, the cost of conversion include a systematic allocation of fixed and variable overheads that are incurred in converting materials into finished goods. The allocation of fixed overheads for the purpose of their inclusion in the cost of conversion is based on normal capacity of the production facilities.

Cost per kg. of finished goods:

		₹
Material Cost		200
Direct Labour	40	
Direct Variable Production Overhead	20	
Fixed Production Overhead $\left(\frac{20,00,000}{2,00,000} \right)$	<u>10</u>	<u>70</u>
		<u>270</u>

Hence the value of 4,000 kgs. of finished goods = 4,000 kgs x ₹ 270 = ₹ 10,80,000

AS 3 "Cash Flow Statements"

Question 10

What are the main features of the Cash Flow Statement? Explain with special reference to AS 3.

Answer

According to AS 3 (Revised) on "Cash Flow Statement", cash flow statement deals with the provision of information about the historical changes in cash and cash equivalents of an enterprise during the given period from operating, investing and financing activities. Cash flows from operating activities can be reported using either

- (a) the direct method, whereby major classes of gross cash receipts and gross cash payments are disclosed; or

1.6 Accounting

- (b) the indirect method, whereby net profit or loss is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

As per para 42 of AS 3 (Revised), an enterprise should disclose the components of cash and cash equivalents and should present a reconciliation of the amounts in its cash flow statement with the equivalent items reported in the balance sheet.

A cash flow statement when used in conjunction with the other financial statements, provides information that enables users to evaluate the changes in net assets of an enterprise, its financial structure (including its liquidity and solvency), and its ability to affect the amount and timing of cash flows in order to adapt to changing circumstances and opportunities. This statement also enhances the comparability of the reporting of operating performance by different enterprises because it eliminates the effects of using different accounting treatments for the same transactions and events.

AS 3 (revised) is recommendatory at present but for companies listed on stock exchanges, its compliance is mandatory due to the listing agreement which provides for the listed companies to furnish cash flow statement in their Annual Reports.

Question 11

X Ltd. purchased debentures of ₹ 10 lacs of Y Ltd., which are traded in stock exchange. How will you show this item as per AS 3 while preparing cash flow statement for the year ended on 31st March, 2011?

Answer

As per AS 3 on 'Cash flow Statement', cash and cash equivalents consists of cash in hand, balance with banks and short-term, highly liquid investments*. If investment, of ₹ 10 lacs, made in debentures is for short-term period then it is an item of 'cash equivalents'.

However, if investment of ₹ 10 lacs made in debentures is for long-term period then as per AS 3, it should be shown as cash flow from investing activities.

Question 12

Following is the cash flow abstract of Alpha Ltd. for the year ended 31st March, 2011:

Cash Flow (Abstract)

Inflows	₹	Outflows	₹
Opening balance:		Payment to creditors	90,000
Cash	10,000	Salaries and wages	25,000

* As per para 6 of AS 3, an investment normally qualifies as a cash equivalent only when it has a short maturity of, say three months or less from the date of acquisition.

Bank	70,000	Payment of overheads	15,000
Share capital – shares issued	5,00,000	Fixed assets acquired	4,00,000
Collection from Debtors	3,50,000	Debentures redeemed	50,000
Sale of fixed assets	70,000	Bank loan repaid	2,50,000
		Taxation	55,000
		Dividends	1,00,000
		Closing balance:	
		Cash	5,000
		bank	<u>10,000</u>
	<u>10,00,000</u>		<u>10,00,000</u>

Prepare Cash Flow Statement for the year ended 31st March, 2011 in accordance with Accounting standard 3.

Answer

AS 6 "Depreciation Accounting"

Question 13

X Co. Ltd. charged depreciation on its asset on SLM basis. For the year ended 31.3.2011 it changed to WDV basis. The impact of the change when computed from the date of the asset coming to use amounts to ₹ 20 lakhs being additional charge.

Decide how it must be disclosed in Profit and loss account. Also discuss, when such changes in method of depreciation can be adopted by an enterprise as per AS 6.

Answer

The company should disclose the change in method of depreciation adopted for the accounting year. The impact on depreciation charge due to change in method must be quantified and reported by the enterprise.

Following aspects may be noted in this regard as per AS 6 on Depreciation Accounting.

- (a) The depreciation method selected should be applied consistently from period to period.
- (b) A change from one method of providing depreciation to another should be made only if the adoption of the new method is required by statute or for compliance with an accounting standard if it is considered that the change would result in a more appropriate preparation or presentation of the financial statements of the enterprise.
- (c) When such a change in the method of depreciation is made, depreciation should be recalculated in accordance with the new method from the date of the asset coming into use. The deficiency or surplus arising from retrospective recomputation of depreciation in accordance with the new method should be adjusted in the accounts in the year in which the method of depreciation is changed.
- (d) In case the change in the method results in deficiency in depreciation in respect of past years, the deficiency should be charged in the statement of profit and loss.
- (e) In case the change in the method results in surplus, the surplus should be credited to the statement of profit and loss. Such a change should be treated as a change in accounting policy and its effect should be quantified and disclosed.

Question 14

A Limited company charged depreciation on its assets on the basis of W.D.V. method from the date of assets coming to use till date amounts to ₹ 32.23 lakhs. Now the company decides to

switch over to Straight Line method of providing for depreciation. The amount of depreciation computed on the basis of S.L.M. from the date of assets coming to use till the date of change of method amounts to ₹ 20 lakhs.

Discuss as per AS-6, when such changes in method of can be adopted by the company and what would be the accounting treatment and disclosure requirement.

Answer

Paragraph 21 of Accounting Standard 6 on Depreciation Accounting says, "The depreciation method selected should be applied consistently from period to period. A change from one method of providing depreciation to another should be made only if the adoption of the new method is required by statute or for compliance with an accounting standard or if it is considered that the change would result in a more appropriate preparation or presentation of the financial statements of the enterprise."

The paragraph also mentions the procedure to be followed when such a change in the method of depreciation is made by an enterprise. As per the said paragraph, depreciation should be recalculated in accordance with the new method from the date of the asset coming to use. The difference in the amount, being deficiency or surplus from retrospective re-computation should be adjusted in the profit and loss account in the year such change is affected. Since such a change amounts to a change in the accounting policy, it should be properly quantified and disclosed. In the question given, the surplus arising out of retrospective re-computation of depreciation as per the straight line method is ₹ 12.23 lakhs (₹ 32.23 lakhs – ₹ 20 lakhs). This should be written back to Profit and Loss Account and should be disclosed accordingly.

Question 15

A plant was depreciated under two different methods as under:

Year	SLM (₹ in lakhs)	W.D.V. (₹ in lakhs)
1	7.80	21.38
2	7.80	15.80
3	7.80	11.68
4	<u>7.80</u>	<u>8.64</u>
	<u>31.20</u>	<u>57.50</u>
5	7.80	6.38

What should be the amount of resultant surplus/deficiency, if the company decides to switch over from W.D.V. method to SLM method for first four years? Also state, how you will treat the same in Accounts.

Answer

As per para 21 of AS 6 on Depreciation Accounting, when a change in the method of depreciation is made, depreciation should be recalculated in accordance with the new method from the date of

1.10 Accounting

the asset coming into use. The deficiency or surplus arising from retrospective re-computation of depreciation in accordance with the new method should be adjusted in the accounts in the year in which the method of depreciation is changed. In the given case, there is a surplus of ₹ 26.30 lakhs on account of change in method of depreciation, which will be credited to Profit and Loss Account. Such a change should be treated as a change in accounting policy and its effect should be quantified and disclosed.

Question 16

A machinery costing ₹ 20 lakhs has useful life for 5 years. At the end of 5 years its scrap value would be ₹ 2 lakhs. How much depreciation is to be charged in the books of the company as per Accounting Standard 6?

Answer

Calculation of depreciation as per Straight Line Method

	₹
Cost of machinery	20,00,000
Less: Scrap value at the end of its useful life (i.e. after 5 years)	<u>(2,00,000)</u>
Amount to be written off during the useful life of the machinery	<u>18,00,000</u>
Useful life of the machinery	5 years
Depreciation to be provided each year (₹ 18,00,000 / 5 years)	₹ 3,60,000

Question 17

M/s Progressive Company Limited has not charged depreciation for the year ended on 31st March, 2012, in respect of a spare bus purchased during the financial year 2011-12 and kept ready by the company for use as a stand-by, on the ground that, it was not actually used during the year. State your views with reference to Accounting Standard 6 "Depreciation Accounting".

Answer

According to AS 6, 'Depreciation Accounting', depreciation is a measure of the wearing out, consumption or other loss of value of a depreciable assets arising from use, effluxion of time or obsolescence through technology and market changes. Accordingly, depreciation may arise even the asset is not used in the current year but was ready for use in that year.

The need for using the stand by bus may not have arisen during the year but that does not imply that the useful life of the bus has not been affected. Therefore, non-provision of depreciation on the ground that the bus was not used during the year is not tenable.

Question 18

A computer costing ₹ 60,000 is depreciated on straight line basis, assuming 10 years working life and Nil residual value, for three years. The estimate of remaining useful life after third year

was reassessed at 5 years. Calculate depreciation as per the provisions of Accounting Standard 6 "Depreciation Accounting".

Answer

Depreciation per year = ₹ 60,000 / 10 = ₹ 6,000

Depreciation on SLM charged for three years = ₹ 6,000 x 3 years = ₹ 18,000

Book value of the computer at the end of third year = ₹ 60,000 – ₹ 18,000 = ₹ 42,000.

Remaining useful life as per previous estimate = 7 years

Remaining useful life as per revised estimate = 5 years

Depreciation from the fourth year onwards = ₹ 42,000 / 5 = ₹ 8,400 per annum

Question 19

In the Trial Balance of M/s. Sun Ltd. as on 31-3-2012, balance of machinery appears ₹ 5,60,000. The company follows rate of depreciation on machinery @ 10% p.a. on Written Down Value Method. On scrutiny it was found that a machine appearing in the books on 1-4-2011 at ₹ 1,60,000 was disposed of on 30-9-2011 at ₹ 1,35,000 in part exchange of a new machine costing ₹ 1,50,000.

You are required to calculate:

- (i) Total depreciation to be charged in the Profit and Loss Account.
- (ii) Loss on exchange of machine.
- (iii) Book value of machinery in the Balance Sheet as on 31.3.2012.

Answer

(i) Total Depreciation to be charged in the Profit and Loss Account

	₹
Depreciation on old machinery in use [10% of (5,60,000-1,60,000)]	40,000
Add: Depreciation on new machine @ 10% for six months $\left(1,50,000 \times 10\% \times \frac{6}{12} \right)$	<u>7,500</u>
Total depreciation on machinery in use	47,500
Add: Depreciation on machine disposed of (10% for 6 months) $\left(1,60,000 \times 10\% \times \frac{6}{12} \right)$	<u>8,000</u>
So, total depreciation to be charged in Profit and Loss A/c	<u>55,500</u>

1.12 Accounting

(ii) Loss on Exchange of Machine

	₹
Book value of machine as on 1.4.2011	1,60,000
Less: Depreciation for 6 months @ 10%	<u>(8,000)</u>
Written Down Value as on 30.9.2011	1,52,000
Less: Exchange value	<u>(1,35,000)</u>
Loss on exchange of machine	<u>17,000</u>

(iii) Book Value of Machinery in the Balance Sheet as on 31.03.2012

	₹
Balance as per trial balance	5,60,000
Less: Book value of machine sold	<u>(1,60,000)</u>
	4,00,000
Add: Purchase of new machine	<u>1,50,000</u>
	5,50,000
Less: Depreciation on machinery in use	<u>(47,500)</u>
	<u>5,02,500</u>

AS7 "Construction Contracts"

Question 20

What are the disclosure requirements of AS-7 (Revised)?

Answer

According to paragraphs 38, 39 and 41 of AS 7, an enterprise should disclose:

- the amount of contract revenue recognized as revenue in the period;
- the methods used to determine the contract revenue recognized in the period; and
- the methods used to determine the stage of completion of contracts in progress.

In case of contract still in progress the following disclosures are required at the reporting date:

- the aggregate amount of costs incurred and recognised profits (less recognised losses) upto the reporting date;
- the amount of advances received; and
- the amount of retentions.

An enterprise should also present:

- the gross amount due from customers for contract work as an asset; and

(b) the gross amount due to customers for contract work as a liability.

Question 21

B Ltd. undertook a construction contract for ₹ 50 crores in April, 2010. The cost of construction was initially estimated at ₹ 35 crores. The contract is to be completed in 3 years. While executing the contract, the company estimated the cost of completion of the contract at ₹ 53 crores.

Can the company provide for the expected loss in the book of account for the year ended 31st March, 2011?

Answer

As per para 35 of AS 7 "Construction Contracts", when it is probable that total contract costs will exceed total contract revenue, the expected loss should be recognised as an expense immediately. Therefore, The foreseeable loss of ₹ 3 crores (₹ 53 crores less ₹ 50 crores) should be recognised as an expense immediately in the year ended 31st March, 2011. The amount of loss is determined irrespective of

- (i) Whether or not work has commenced on the contract;
- (ii) Stage of completion of contract activity; or
- (iii) The amount of profits expected to arise on other contracts which are not treated as a single construction contract in accordance with para 8 of AS 7.

Question 22

M/s Excellent Construction Company Limited undertook a contract to construct a building for ₹ 3 crore on 1st September, 2011. On 31st March, 2012 the company found that it had already spent ₹ 1 crore 80 lakhs on the construction. Prudent estimate of additional cost for completion was ₹ 1 crore 40 lakhs. What amount should be charged, to revenue in the final accounts for the year ended on 31st March, 2012, as per the provisions of Accounting Standard 7 "Construction Contracts (Revised)"?

Answer

	₹ in crores
Cost of construction incurred till date	1.80
Add: Estimated future cost	<u>1.40</u>
Total estimated cost of construction	<u>3.20</u>

Percentage of completion till date to total estimated cost of construction

$$= (1.80/3.20) \times 100 = 56.25\%$$

Proportion of total contract value recognised as revenue as per AS 7 (Revised)

$$= \text{Contract price} \times \text{percentage of completion}$$

$$= ₹ 3 \text{ crores} \times 56.25\% = ₹ 1.6875 \text{ crores}$$

1.14 Accounting

Amount of foreseeable loss	(₹ in crores)
Total cost of construction	3.20
Less: Total contract price	<u>(3.00)</u>
Total foreseeable loss to be recognized as expense	<u>0.20</u>

According to of AS 7 (Revised 2002), when it is probable that total contract costs will exceed total contract revenue, the expected loss should be recognized as an expense immediately.

AS9 "Revenue Recognition"

Question 23

Media Advertisers obtained advertisement rights for One Day World Cup Cricket Tournament to be held in May/June, 2011 for ₹ 250 lakhs.

By 31st March, 2011, they have paid ₹ 150 lakhs to secure these advertisement rights. The balance ₹ 100 lakhs was paid in April, 2011.

By 31st March, 2011, they procured advertisement for 70% of the available time for ₹ 350 lakhs. The advertisers paid 60% of the amount by that date. The balance 40% was received in April, 2011.

Advertisements for the balance 30% time were procured in April, 2011 for ₹ 150 lakhs. The advertisers paid the full amount while booking the advertisement.

25% of the advertisement time is expected to be available in May, 2011 and the balance 75% in June, 2011.

You are asked to:

- Pass journal entries in relation to the above.
- Show in columnar form as to how the items will appear in the monthly financial statements for March, April, May and June 2011.

Give reasons for your treatment.

As per para 7.1 of AS 9 on Revenue Recognition, under proportionate completion method, revenue from service transactions is recognised proportionately by reference to

the performance of each act where performance consists of the execution of more than one act. Therefore, income from advertisement is recognised in May, 2011 (25%) and June, 2011 (75%) in the proportion of availability of the advertisement time.

Question 24

X Limited has recognized ₹ 10 lakhs on accrual basis income from dividend on units of mutual funds of the face value of ₹ 50 lakhs held by it as at the end of the financial year 31st March, 2011. The dividends on mutual funds were declared at the rate of 20% on 15th June, 2011. The dividend was proposed on 10th April, 2011 by the declaring company. Whether the treatment is as per the relevant Accounting Standard? You are asked to answer with reference to provisions of Accounting Standard.

Answer

Paragraph 8.4 and 13 of Accounting Standard 9 'Revenue Recognition' states that dividends from investments in shares are not recognised in the statement of profit and loss until a right to receive payment is established.

In the given case, the dividend is proposed on 10th April, 2011, while it is declared on 15th June, 2011. Hence, the right to receive payment is established on 15th June, 2011. As per the above mentioned paragraphs, income from dividend on units of mutual funds should be recognised by X Ltd. in the financial year ended 31st March, 2012.

The recognition of ₹ 10 lakhs on accrual basis in the financial year 2010-2011 is not as per AS 9 'Revenue Recognition'.

- (i) Acting as a banker in respect of funds of local bodies, Zilla Parishads, Panchayat Institutions etc. who keep their funds with the treasuries.
- (ii) Custody of opium and other valuables because of the strong room facility provided at the treasury.
- (iii) Custody of cash balances of the State Government and conducting cash business of Government at non-banking treasuries.

Question 25

Arjun Ltd. sold farm equipments through its dealers. One of the conditions at the time of sale is payment of consideration in 14 days and in the event of delay interest is chargeable @ 15% per annum. The Company has not realized interest from the dealers in the past. However, for the year ended 31.3.2011, it wants to recognise interest due on the balances due from dealers. The amount is ascertained at ₹ 9 lakhs. Decide, whether the income by way of interest from dealers is eligible for recognition as per AS 9?

Answer

As per AS 9 "Revenue Recognition", where the ability to assess the ultimate collection with reasonable certainty is lacking at the time of raising any claim, the revenue recognition is

1.18 Accounting

postponed to the extent of uncertainty inverted. In such cases, the revenue is recognized only when it is reasonably certain that the ultimate collection will be made.

In this case, the company never realized interest for the delayed payments made by the dealers. Hence, it has to recognize the interest only if the ultimate collection is certain. The interest income hence is not to be recognized.

Question 26

The Board of Directors of X Ltd. decided on 31.3.2011 to increase sale price of certain items of goods sold retrospectively from 1st January, 2011. As a result of this decision the company has to receive ₹ 5 lakhs from its customers in respect of sales made from 1.1.2011 to 31.3.2011. But the Company's Accountant was reluctant to make-up his mind. You are asked to offer your suggestion.

Answer

As per para 10 of AS 9 'Revenue Recognition', the additional revenue on account of increase in sales price with retrospective effect, as decided by Board of Directors of X Ltd., of ₹ 5 lakhs to be recognised as income for financial year 2010-11, only if the company is able to assess the ultimate collection with reasonable certainty. If at the time of raising of any claim it is unreasonable to expect ultimate collection, revenue recognition should be postponed.

AS 10 "Accounting for Fixed Assets"

Question 27

- (a) Explain the 'Accounting of Revaluation of Assets' with reference to AS 10.
- (b) Explain the disclosure requirement for fixed assets as per AS 10.

Answer

- (a) As per Para 30 of AS 10 "Accounting for Fixed Assets", an increase in net book value arising on revaluation of fixed assets should be credited to owner's interests under the head of 'revaluation reserve, except that, to the extent that such increase is related to and not greater than a decrease arising on revaluation previously recorded as a charge to the profit and loss statement, it may be credited to the profit and loss statement. A decrease in net book value arising on revaluation of fixed assets is charged directly to profit and loss statement except that to the extent such a decrease is related to an increase which was previously recorded as a credit to revaluation reserve and which has not been subsequently reversed or utilized, it may be charged directly to that account.
- (b) As per para 39 of AS 10 "Accounting for Fixed Assets", following information should be disclosed in the financial statements:
 - 1. Gross and net book values of fixed assets at the beginning and at the end of an accounting period showing additions, disposals, acquisitions and other movements.

2. Expenditure incurred on account of fixed assets in the course of construction or acquisition; and
3. Revalued amounts substituted for historical costs of fixed assets, the method adopted to compute the revalued amounts, the nature of indices used, the year of any appraisal made, and whether an external valuer was involved, in case where fixed assets are stated at revalued amounts.

Question 28

During the current year 2010-11, X Limited made the following expenditure relating to its plant building:

	<i>₹ in lakhs</i>
<i>Routine Repairs</i>	4
<i>Repairing</i>	1
<i>Partial replacement of roof tiles</i>	0.5
<i>Substantial improvements to the electrical wiring system which will increase efficiency</i>	10

What amount should be capitalized?

Answer

As per para 12.1 of AS 10 'Accounting for Fixed Assets', expenditure that increases the future benefits from the existing asset beyond its previously assessed standard of performance is included in the gross book value, e.g., an increase in capacity. Hence, in the given case, Repairs amounting ₹ 5 lakhs and Partial replacement of roof tiles should be charged to profit and loss statement. ₹ 10 lakhs incurred for substantial improvement to the electrical writing system which will increase efficiency should be capitalized.

Question 29

During the year 2010-11, P Limited incurred the following expenses on machinery:

₹ 2.50 lacs as routine repairs and ₹ 75,000 on partial replacement of a part. ₹ 7 lacs on replacement of part of a machinery which will improve the efficiency of the machine. Which amount should be capitalized as per AS 10?

Answer

As per para 12.1 of AS 10 "Accounting for Fixed Assets", only those expenditures that increase the future benefits from the existing assets, is to be included in the gross book value. Example: Increase in capacity.

Hence, in the given case, amount of ₹ 3.25 lacs spent on repairs and partial replacement of a part of the machinery should be charged to Profit and Loss Account as they will help in maintaining the capacity but will not improve the efficiency of the machine. However, ₹ 7 lacs incurred on

1.20 Accounting

replacement of a part of the machinery, which will increase the efficiency, should be capitalized by inclusion in the gross book value of assets.

Question 30

During the year M/s Progressive Company Limited made additions to its factory by using its own workforce, at a cost of ₹ 4,50,000 as wages and materials. The lowest estimate from an outside contractor to carry out the same work was ₹ 6,00,000. The directors contend that, since they are fully entitled to employ an outside contractor, it is reasonable to debit the Factory Building Account with ₹ 6,00,000. Comment whether the directors' contention is right in view of the provisions of Accounting Standard 10 "Accounting for Fixed Assets"?

Answer

AS 10, 'Accounting for Fixed Assets', clearly states that the gross book value of the self constructed fixed asset includes the cost of construction that relate directly to the specific asset and the costs that are attributable to the construction activity in general can be allocated to the specific asset. If any internal profit is there it should be eliminated. Thus, only ₹ 4,50,000 should be debited to the factory building account and not ₹ 6,00,000. Hence, the contention of the directors of the company to capitalize ₹ 6,00,000 as cost of factory building, on the ground that the company is fully entitled to employ an outside contractor is not justifiable.

Question 31

M/s. Tiger Ltd. allotted 7,500 equity shares of ₹ 100 each fully paid up to Lion Ltd. in consideration for supply of a special machinery. The shares exchanged for machinery are quoted at National Stock Exchange (NSE) at ₹ 95 per share, at the time of transaction. In the absence of fair market value of the machinery acquired, show how the value of the machinery would be recorded in the books of Tiger Ltd.?

Answer

As per para 11 of AS 10 "Accounting for Fixed Assets", fixed asset acquired in exchange for shares or other securities in the enterprise should be recorded at its fair market value, or the fair market value of the securities issued, whichever is more clearly evident. Since, in the given situation, the market value of the shares exchanged for the asset is more clearly evident, the company should record the value of machinery at ₹ 7,12,500 (i.e., 7,500 shares x ₹ 95 per share) being the market price of the shares issued in exchange.

Question 32

PQR Ltd. constructed a fixed asset and incurred the following expenses on its construction:

	₹
<i>Materials</i>	<i>16,00,000</i>
<i>Direct Expenses</i>	<i>3,00,000</i>
<i>Total Direct Labour</i>	<i>6,00,000</i>

(1/15th of the total labour time was chargeable to the construction)	
Total Office & Administrative Expenses	9,00,000
(4% is chargeable to the construction)	
Depreciation on assets used for the construction of this asset	15,000

Calculate the cost of the fixed asset.

Answer

Calculation of cost of fixed asset

	₹
Materials	16,00,000
Direct expenses	3,00,000
Direct labour (1/15 th of ₹ 6,00,000)	40,000
Office and administrative expenses (4% ₹ 9,00,000)	36,000
Depreciation on assets	<u>15,000</u>
Cost of fixed asset	<u>19,91,000</u>

Note: It is assumed that 4% of office and administrative expenses are specifically attributable to construction of a fixed asset. Alternatively, it may be assumed that 4% of office and administrative expenses are only allocated to construction project and is not specifically attributable to it. In such a case, the cost of fixed assets will be ₹ 19,55,000.

AS 13 "Accounting for Investments"

Question 33

Briefly explain disclosure requirements for Investments as per AS-13.

Answer

The disclosure requirements as per para 35 of AS 13 are as follows:

- (i) Accounting policies followed for valuation of investments.
- (ii) Classification of investment into current and long term in addition to classification as per Schedule VI of Companies Act in case of company.
- (iii) The amount included in profit and loss statements for
 - (a) Interest, dividends and rentals for long term and current investments, disclosing therein gross income and tax deducted at source thereon;
 - (b) Profits and losses on disposal of current investment and changes in carrying amount of such investments;

1.22 Accounting

- (c) Profits and losses and disposal of long term investments and changes in carrying amount of investments.
- (iv) Aggregate amount of quoted and unquoted investments, giving the aggregate market value of quoted investments;
- (v) Any significant restrictions on investments like minimum holding period for sale/disposal, utilisation of sale proceeds or non-remittance of sale proceeds of investment held outside India.
- (vi) Other disclosures required by the relevant statute governing the enterprises.

Question 34

M/s Innovative Garments Manufacturing Company Limited invested in the shares of another company on 1st October, 2011 at a cost of ₹ 2,50,000. It also earlier purchased Gold of ₹ 4,00,000 and Silver of ₹ 2,00,000 on 1st March, 2009. Market value as on 31st March, 2012 of above investments are as follows:

	₹
Shares	2,25,000
Gold	6,00,000
Silver	3,50,000

How above investments will be shown in the books of accounts of M/s Innovative Garments Manufacturing Company Limited for the year ending 31st March, 2012 as per the provisions of Accounting Standard 13 "Accounting for Investments"?

Answer

As per AS 13 'Accounting for Investments', for investment in shares - if the investment is purchased with an intention to hold for short-term period then it will be shown at the realizable value of ₹ 2,25,000 as on 31st March, 2012.

If equity shares are acquired with an intention to hold for long term period then it will continue to be shown at cost in the Balance Sheet of the company. However, provision for diminution shall be made to recognize a decline, if other than temporary, in the value of the investments.

As per the standard, investment acquired for long term period shall be shown at cost. Gold and silver are generally purchased with an intention to hold it for long term period until and unless given otherwise. Hence, the investment in Gold and Silver (purchased on 1st March, 2009) shall continue to be shown at cost as on 31st March, 2012 i.e., ₹ 4,00,000 and ₹ 2,00,000 respectively, though their realizable values have been increased.

Question 35

ABC Ltd. wants to re-classify its investments in accordance with AS 13. Decide and state on the amount of transfer, based on the following information:

- (1) A portion of current investments purchased for ₹ 20 lakhs, to be reclassified as long term investment, as the company has decided to retain them. The market value as on the date of Balance Sheet was ₹ 25 lakhs.
- (2) Another portion of current investments purchased for ₹ 15 lakhs, to be reclassified as long term investments. The market value of these investments as on the date of balance sheet was ₹ 6.5 lakhs.
- (3) Certain long term investments no longer considered for holding purposes, to be reclassified as current investments. The original cost of these was ₹ 18 lakhs but had been written down to ₹ 12 lakhs to recognize permanent decline as per AS 13.

Answer

As per AS 13, where investments are reclassified from current to long-term, transfers are made at the lower of cost and fair value at the date of transfer.

- (1) In the first case, the market value of the investment is ₹ 25 lakhs, which is higher than its cost i.e. ₹ 20 lakhs. Therefore, the transfer to long term investments should be carried at cost i.e. ₹ 20 lakhs.
- (2) In the second case, the market value of the investment is ₹ 6.5 lakhs, which is lower than its cost i.e. ₹ 15 lakhs. Therefore, the transfer to long term investments should be carried in the books at the market value i.e. ₹ 6.5 lakhs. The loss of ₹ 8.5 lakhs should be charged to profit and loss account.

As per AS 13, where long-term investments are re-classified as current investments, transfers are made at the lower of cost and carrying amount at the date of transfer.

- (3) In the third case, the book value of the investment is ₹ 12 lakhs, which is lower than its cost i.e. ₹ 18 lakhs. Here, the transfer should be at carrying amount and hence this re-classified current investment should be carried at ₹ 12 lakhs.

AS 14 "Accounting for Amalgamations"

Question 36

Briefly describe the disclosure requirements for amalgamation including additional disclosure, if any, for different methods of amalgamation as per AS 14.

Or

What disclosures should be made in the first financial statements following the amalgamation?

Answer

The disclosure requirements for amalgamations have been prescribed in paragraphs 43 to 46 of AS 14 on Accounting for Amalgamation.

For all amalgamations, the following disclosures should be made in the first financial statements following the amalgamation:

1.24 Accounting

- (a) names and general nature of business of the amalgamating companies;
- (b) the effective date of amalgamation for accounting purpose;
- (c) the method of accounting used to reflect the amalgamation; and
- (d) particulars of the scheme sanctioned under a statute.

For amalgamations accounted under the pooling of interests method, the following additional disclosures should be made in the first financial statements following the amalgamation:

- (a) description and number of shares issued, together with the percentage of each company's equity shares exchanged to effect the amalgamation; and
- (b) the amount of any difference between the consideration and the value of net identifiable assets acquired, and the treatment thereof.

For amalgamations, accounted under the purchase method, the following additional disclosures should be made in the first financial statements following the amalgamation;

- (a) consideration for the amalgamation and a description of the consideration paid or contingently payable; and
- (b) the amount of any difference between the consideration and the value of net identifiable assets acquired, and the treatment thereof including the period of amortisation of any goodwill arising on amalgamation.

Question 37

Briefly explain the methods of accounting for amalgamation as per Accounting Standard-14.

Answer

As per AS 14 on 'Accounting for Amalgamations', there are two main methods of accounting for amalgamations:

- (i) The Pooling of Interest Method: Under this method, the assets, liabilities and reserves of the transferor company are recorded by the transferee company at their existing carrying amounts (after making the necessary adjustments).

If at the time of amalgamation, the transferor and the transferee companies have conflicting accounting policies, a uniform set of accounting policies is adopted following the amalgamation. The effects on the financial statements of any changes in accounting policies are reported in accordance with AS 5 on 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies'.

- (ii) The Purchase Method: Under the purchase method, the transferee company accounts for the amalgamation either by incorporating the assets and liabilities at their existing carrying amounts or by allocating the consideration to individual identifiable assets and liabilities of the transferor company on the basis of their fair values at the date of amalgamation. The identifiable assets and liabilities may include assets and liabilities not recorded in the financial statements of the transferor company.

Where assets and liabilities are restated on the basis of their fair values, the determination of fair values may be influenced by the intentions of the transferee company.

Question 38

List the conditions to be fulfilled as per Accounting Standard 14 for an amalgamation to be in the nature of merger, in the case of companies.

Answer

An amalgamation should be considered to be an amalgamation in the nature of merger if the following conditions are satisfied:

- (i) All the assets and liabilities of the transferor company become, after amalgamation, the assets and liabilities of the transferee company.
- (ii) Shareholders holding not less than 90% of the face value of the equity shares of the transferor company (other than the equity shares already held therein, immediately before the amalgamation, by the transferee company or its subsidiaries or their nominees) become equity shareholders of the transferee company by virtue of the amalgamation.
- (iii) The consideration for the amalgamation receivable by those equity shareholders of the transferor company who agree to become equity shareholders of the transferee company is discharged by the transferee company wholly by the issue of equity shares in the transferee company, except that cash may be paid in respect of any fractional shares.
- (iv) The business of the transferor company is intended to be carried on, after the amalgamation, by the transferee company.
- (v) No adjustment is intended to be made to the book values of the assets and liabilities of the transferor company when they are incorporated in the financial statements of the transferee company except to ensure uniformity of accounting policies.

Question 39

Briefly explain the types of Amalgamations?

Answer

As per AS 14, 'Accounting for Amalgamations' there are two types of amalgamation. In first type of amalgamation there is a genuine pooling not merely of assets and liabilities of the amalgamating companies but also of the shareholders' interests and of the businesses of the companies. Such amalgamations are amalgamations which are in the nature of 'merger' and the accounting treatment of such amalgamations should ensure that the resultant figures of assets, liabilities, capital and reserves more or less represent the sum of the relevant figures of the amalgamating companies.

In the second category are those amalgamations which are in effect a mode by which one company acquires another company and, as a consequence, the shareholders of the company which is acquired normally do not continue to have a proportionate share

in the equity of the combined company, or the business of the company which is acquired is not intended to be continued. Such amalgamations are amalgamations in the nature of 'purchase'.

EXERCISES

1. Explain provisions contained in the Accounting Standard in respect of Revaluation of fixed assets.
2. When can revenue be recognised in the case of transaction of sale of goods?
3. Write short note on valuation of fixed assets in special cases.
4. Jagannath Ltd. had made a rights issue of shares in 2009. In the offer document to its members, it had projected a surplus of ₹ 40 crores during the accounting year to end on 31st March, 2011. The draft results for the year, prepared on the hitherto followed accounting policies and presented for perusal of the board of directors showed a deficit of ₹ 10 crores. The board in consultation with the managing director, decided on the following:
 - (i) Value year-end inventory at works cost (₹ 50 crores) instead of the hitherto method of valuation of inventory at prime cost (₹ 30 crores).
 - (ii) Provide depreciation for the year on straight line basis on account of substantial additions in gross block during the year, instead of on the reducing balance method, which was hitherto adopted. Consequently, the charge for depreciation at ₹ 27 crores is lower than the amount of ₹ 45 crores which would have been provided had the old method been followed, by ₹ 18 crores.
 - (iii) Not to provide for "after sales expenses" during the warranty period. Till the last year, provision at 2% of sales used to be made under the concept of "matching of costs against revenue" and actual expenses used to be charged against the provision. The board now decided to account for expenses as and when actually incurred. Sales during the year total to ₹ 600 crores.
 - (iv) Provide for permanent fall in the value of investments - which fall had taken place over the past five years - the provision being ₹ 10 crores.

As chief accountant of the company, you are asked by the managing director to draft the notes on accounts for inclusion in the annual report for 2010-2011.

5. On 25th September, 2011, Planet Advertising Limited obtained advertisement rights for World Cup Hockey Tournament to be held in Nov./Dec., 2011 for ₹ 520 lakhs.

They furnish the following information:

- (1) The company obtained the advertisements for 70% of available time for ₹ 700 lakhs by 30th September, 11.
- (2) For the balance time they got bookings in October, 11 for ₹ 240 lakhs.
- (3) All the advertisers paid the full amount at the time of booking the advertisements.
- (4) 40% of the advertisements appeared before the public in Nov. 11 and balance 60% appeared in the month of December, 11.

You are required to calculate the amount of profit/loss to be recognized for the month November and December, 2011 as per Accounting Standard 9.

(Hints: Company should recognise ₹ 168 lakhs (i.e. ₹ 420 lakhs x 40%) in November, 2011 and rest ₹ 252 lakhs (i.e. ₹ 420 lakhs x 60%) in December, 2011.)

Financial Statements of Companies

UNIT 1: PREPARATION OF FINANCIAL STATEMENTS

BASIC CONCEPTS

While preparing the final accounts of a company the following should be kept in mind:

- Requirements of Schedule VI;
- Other statutory requirements;

Accounting Standards issued by the Institute of Chartered Accountants of India on different accounting matters as notified by the Central Government

Question 1

Dividend on partly paid shares.

Answer

In the case of partly paid-up shares, the dividend is payable either on the nominal, called-up or the paid-up amount of shares, depending on the provisions in this regard that there may be in the articles of the company. In the absence of any such provisions, Table A should be applicable. In such a case the amount of dividend payable will be calculated on the amount paid-up on the shares, and while doing so, the dates on which the amounts were paid must be taken into account. Calls paid in advance do not rank for payment of dividend. A company may if so authorised by its articles, pay a dividend in proportion to the amount paid on each share, where a larger amount is paid on some shares than on others (Section 93 of the Companies Act, 1956). But where the articles are silent and Table A has been excluded, the amount of dividend payable will have to be calculated on the nominal amount of shares. It should, however, be noted that according to Clause 88 of Table A dividends are to be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares of the company, dividends may be declared and paid according to the nominal amount of the shares.

Question 2

The Articles of Association of S Ltd. provide the following:

- (i) That 20% of the net profit of each year shall be transferred to reserve fund.
- (ii) That an amount equal to 10% of equity dividend shall be set aside for staff bonus.
- (iii) That the balance available for distribution shall be applied:
 - (a) in paying 14% on cumulative preference shares.
 - (b) in paying 20% dividend on equity shares.
 - (c) one-third of the balance available as additional dividend on preference shares and two-third as additional equity dividend.

A further condition was imposed by the articles viz. that the balance carried forward shall be equal to 12% on preference shares after making provisions (i), (ii) and (iii) mentioned above. The company has issued 13,000, 14% cumulative participating preference shares of ₹ 100 each fully paid and 70,000 equity shares of ₹ 10 each fully paid up.

The profit for the year 2012 was ₹ 10,00,000 and balance brought from previous year ₹ 80,000. Provide ₹ 31,200 for depreciation and ₹ 80,000 for taxation before making other appropriations.

Show net balance of profit and loss account after making above adjustments.

Answer

Suppose remaining balance will be = x	
Suppose preference shareholders will get share from remaining balance = $x \times \frac{1}{3} = \frac{1}{3} x$	
Equity shareholders will get share from remaining balance = $x \times \frac{2}{3} = \frac{2}{3} x$	
Bonus to Employees = $\frac{2}{3} x \times \frac{10}{100} = \frac{2}{30} x$	
Now, $\frac{2}{3} x + \frac{1}{3} x + \frac{2}{30} x = 2,99,040$	
$32 x = 89,71,200$	
$x = 89,71,200/32 = ₹ 2,80,350$	
Share of preference shareholders - ₹ 2,80,350 $\times \frac{1}{3} = ₹ 93,450$	
Share of equity shareholders - ₹ 2,80,350 $\times \frac{2}{3} = ₹ 1,86,900$	
Bonus to employees - ₹ 2,80,350 $\times \frac{2}{30} = ₹ 18,690$	

Question 3

The balance sheet of XYZ Ltd. as at 31st December, 2011 inter alia includes the following:

		₹
50,000	8% Preference shares of ₹ 100 each ₹ 70 paid up	35,00,000
1,00,000	Equity shares of ₹ 100 each fully paid up	1,00,00,000
	Securities premium	5,00,000
	Capital redemption reserve	20,00,000
	General reserve	50,00,000

2.4 Accounting

Under the terms of their issue, the preference shares are redeemable on March 31, 2012 at a premium of 5%. In order to finance the redemption, the company makes a right issue of 50,000 equity shares of ₹ 100 each at ₹ 20 being payable on application, ₹ 35 (including premium) on allotment and the balance on January 1, 2012. The issue was fully subscribed and allotment made on March 1, 2012. The monies due on allotment were received by March 30, 2012.

The preference shares were redeemed after fulfilling the necessary conditions of Section 80 of the Companies Act, 1956. The company decided to make the minimum utilisation of general reserve.

You are asked to pass the necessary journal entries and show the relevant extracts from the Balance Sheet as on March 31, 2012 with the corresponding figures as on 31st December, 2011.

Question 5

What are the maximum limits of managerial remuneration for companies having adequate profits?

Answer

For companies having adequate profits, maximum limits of managerial remuneration in different circumstances are as under:

- | | |
|--|-------------------|
| (i) Overall (excluding fee for attending meetings) | 11% of net profit |
| (ii) If there is one managerial person | 5% of net profit |
| (iii) If there are more than one managerial person | 10% of net profit |
| (iv) Remuneration of part-time directors: | |
| (a) If there is no managing or whole-time director | 3% of net profit |
| (b) If there is a managing or whole-time director | 1% of net profit |

Question 6

Calculate the maximum remuneration payable to the Managing Director based on effective capital of a non-investment company for the year, from the information given below:

		(₹ in '000)
(i)	Profit for the year (calculated as per Section 349, 350 & 351 of the Companies Act, 1956)	3,000
(ii)	Paid up capital	18,000
(iii)	Reserves & surplus	7,200
(iv)	Securities premium	1,200
(v)	Long term loans	6,000
(vi)	Investment	3,600
(vii)	Preliminary expenses not written off	3,000
(viii)	Remuneration paid to the Managing Director during the year	600

Answer

Calculation of Effective Capital of the Company**

	₹ in '000
Paid-up capital	18,000
Add: Reserves and surplus	7,200
Securities premium	1,200
Long term loans	<u>6,000</u>
	32,400
Less: Investments	3,600
Preliminary expenses	<u>3,000</u>
Effective capital for the purpose of managerial remuneration	<u>25,800</u>
<p>As effective capital is less than ₹ 5 crores but more than ₹ 1 crore, therefore maximum remuneration payable to the Managing Director should be @ ₹ 1,00,000 per month.</p> <p>So, maximum remuneration payable to the Managing Director for the year (₹ 1,00,000 x 12) = ₹ 12,00,000</p>	

**It is assumed that the company is having inadequate net profit and remuneration to a managerial person by way of salary, dearness allowance, perquisites and any other allowances is not exceeding the ceiling limit of ₹ 24,00,000 p.a.

UNIT 2 : CASH FLOW STATEMENT

BASIC CONCEPTS AND STEPS TO SOLVE THE PROBLEMS

- Dealt with under AS 3
- Based on cash concept of profit
- Benefits include providing information relating to changes in cash and cash equivalents of an enterprise.
- Useful tool of planning
- Cash include :
 - (a) Cash in hand
 - (b) Demand deposits with banks
 - (c) Cash equivalents
- Cash flow activities may be classified as inflow and outflow but as per AS-3 they are classified as Operating Activities, Investing activities, Financing activities
- Operating activities are principal revenue generating activities
- Investing Activities relate to acquisition and disposal of long-term assets and other investments
- Financing Activities include the ones which result in changes in the size and composition of the owner's capital (including preference share capital) and borrowings of the enterprise.
- Methods to calculate cash flow from operating activities include:
 - (a) Direct Method
 - (b) Indirect Method also known as reconciliation method
- In order to calculate cash flow from investing activities inflows and outflows related to acquisition and disposal of assets, other than those related to operating activities, are shown under this category
- In order to calculate cash flow from financing activities inflows and outflows related to the amount of capital and borrowings of the enterprise are shown under this head

Question 1

Classification of activities (with two examples) as suggested in AS 3, to be used for preparing a cash flow statements.

Answer

AS 3 (Revised) on Cash Flow Statements requires that the cash flow statement should report cash flows by operating, investing and financing activities.

- (i) **Operating activities** are the principal revenue-producing activities of the enterprise and other activities that are not investing or financing activities. Cash receipts from sale of goods and cash payments to suppliers of goods are two examples of operating activities.
- (ii) **Investing activities** are acquisition and disposal of long-term assets and other investments not included in cash equivalents. Payment made to acquire machinery and cash received for sale of furniture are examples of investing activities.
- (ii) **Financial activities** are those activities that result in changes in the size and composition of the owner's capital (including preference share capital in the case of a company) and borrowings of the enterprise. Cash proceeds from issue of shares and cash paid to redeem debentures are two examples of financing activities.

Question 2

Explain the difference between direct and indirect methods of reporting cash flows from operating activities with reference to Accounting Standard 3, (AS 3) revised.

Answer

As per para 18 of AS 3 (Revised) on Cash Flow Statements, an enterprise should report cash flows from operating activities using either :

- (a) the direct method, whereby major classes of gross cash receipts and gross cash payments are disclosed; or
- (b) the indirect method, whereby net profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

The direct method provides information which may be useful in estimating future cash flows and which is not available under the indirect method and is, therefore, considered more appropriate than the indirect method. Under the direct method, information about major classes of gross cash receipts and gross cash payments may be obtained either :

- (a) from the accounting records of the enterprise; or
- (b) by adjusting sales, cost of sales (interest and similar income and interest expense and similar charges for a financial enterprise) and other items in the statement of profit and loss for:
 - (i) changes during the period in inventories and operating receivables and payables;
 - (ii) other non-cash items; and
 - (iii) other items for which the cash effects are investing or financing cash flows.

2.18 Accounting

Under the indirect method, the net cash flow from operating activities is determined by adjusting net profit or loss for the effects of :

- (a) changes during the period in inventories and operating receivables and payables;
- (b) non-cash items such as depreciation, provisions, deferred taxes and unrealised foreign exchange gains and losses; and
- (c) all other items for which the cash effects are investing or financing cash flows.

Alternatively, the net cash flow from operating activities may be presented under the indirect method by showing the operating revenues and expenses, excluding non-cash items disclosed in the statement of profit and loss and the changes during the period in inventories and operating receivables and payables.

Question 3

	Cash and cash equivalent at the beginning of the year		<u>10,000</u>
	Cash and cash equivalent at the end of the year		<u>10,000</u>

Working Notes:

1. Revaluation of stock will increase opening stock by ₹ 24,000.

$$\frac{2,16,000}{90} \times 10 = ₹ 24,000$$

Therefore, opening balance of other current assets would be as follows:

$$₹ 11,10,000 + ₹ 24,000 = ₹ 11,34,000$$

Due to under valuation of stock, the opening balance of profit and loss account be increased by ₹ 24,000.

The opening balance of profit and loss account after revaluation of stock will be

$$₹ 2,40,000 + ₹ 24,000 = ₹ 2,64,000$$

2. Investment Account

	₹		₹
To Balance b/d	4,00,000	By Bank A/c	1,20,000
To Capital reserve A/c (Profit on sale of investment)	<u>40,000</u>	(balancing figure being investment sold)	
	<u>4,40,000</u>	By Balance c/d	<u>3,20,000</u>
			<u>4,40,000</u>

3. Fixed Assets Account

	₹		₹	₹
To Balance b/d	32,00,000	By Bank A/c (sale of assets)	1,00,000	
To Bank A/c (balancing figure being assets purchased)	8,56,000	By Accumulated depreciation A/c	80,000	
		By Profit and loss A/c (loss on sale of assets)	<u>20,000</u>	2,00,000
		By Accumulated depreciation A/c	40,000	
		By Profit and loss A/c (assets written off)	<u>16,000</u>	56,000
	<u>40,56,000</u>	By Balance c/d		<u>38,00,000</u>
				<u>40,56,000</u>

4. Accumulated Depreciation Account

	₹		₹
To Fixed assets A/c	80,000	By Balance b/d	9,20,000
To Fixed assets A/c	40,000	By Profit and loss A/c (depreciation for the period)	<u>3,60,000</u>
To Balance c/d	<u>11,60,000</u>		<u>12,80,000</u>
	<u>12,80,000</u>		

5. Unpaid dividend is taken as non-current item and dividend paid is shown at ₹ 1,04,000 (₹1,20,000 – ₹16,000).

Note: Alternatively, unpaid dividend can be assumed as current liability and hence, dividend paid can be shown at ₹ 1,20,000. Due to this assumption cash flow from operating activities would be affected. The cash flow from operating activities will increase by ₹ 16,000 to ₹ 6,08,000 and cash flow from financing activities will get reduced by ₹ 16,000 to ₹ 28,000.

Profit or Loss Prior to Incorporation

BASIC CONCEPTS

- Profit or loss of a business for the period prior to the date the company came into existence is referred to as Pre-Incorporation Profits or Losses.
- Generally there are two methods of computing Profit & Loss prior to Incorporation
 - One is to close of old books and open new books with the assets and liabilities as they existed at the date of incorporation. In this way, automatically the result to that date will be adjusted.
 - Other is to split up the profit of the year of the transfer of the business to the company between 'pre' and 'post' incorporation periods. This is done either on the time basis or on the turnover basis or by a method which combines the two.

<i>Item</i>	<i>Basis of Apportionment between pre and Post incorporation period</i>
Gross Profit or Gross Loss	On the basis of turnover in the respective periods. Or On the basis of cost of goods sold in the respective periods in the absence of any information regarding turnover. Or On the basis of time in the respective periods in the absence of any information regarding turnover and cost of goods sold.
Variable expenses linked with Turnover [e.g. Carriage/Cartage outward, Selling and distribution expenses, Commission to selling agents/travelling agents, advertisement expenses, Bad debts (if actual bad debts for the two periods are not given), Brokerage, Sales Promotion.]	On the basis of Turnover in the pre and post incorporation.
Fixed Common charges [e.g. Salaries, Office and Administration Expenses, Rent, Rates and Taxes, Printing and Stationery,	On the basis of Time in the pre and post incorporation periods.

3.2 Accounting

Telephone, Telegram and Postage, Depreciation, Miscellaneous Expenses]	
Expenses exclusively relating to pre-Incorporation period [e.g. Interest on Vendor's Capital]	Charge to pre-incorporation period but if the purchase consideration is not paid on taking over of business, interest for the subsequent period is charged to post incorporation period.
Expenses exclusively relating to post-incorporation period [e.g. Formation expenses, interest on debentures, director's fees, Directors' remuneration, Preliminary Expenses, Share issue Expenses, Underwriting commission, Discount on issue of securities.	Charge to Post-incorporation period
Audit Fees (i) For Company's Audit under the Companies Act, 1956. (ii) For Tax Audit under section 44AB of the Income tax Act, 1961	Charge to Post-incorporation period On the basis of turnover in the respective periods.
Interest on purchase consideration to vendor: (i) For the period from the date of acquisition of business to date of incorporation. (ii) For the period from the date	Charge to Pre-incorporation period Charge to Post-incorporation period
<ul style="list-style-type: none"> ➤ A company taking over a running business may also agree to collect its debts as an agent for the vendor and may further undertake to pay the creditor on behalf of the vendors. In such a case, the debtors and creditors of the vendors will be included in the accounts for the company by debit or credit to separate total accounts in the General Ledger to distinguish them from the debtors and creditors of the business and contra entries will be made in corresponding Suspense Accounts. Also details of debtors and creditors balance will be kept in separate ledger. ➤ The vendor is treated as a creditor for the cash received by the purchasing company in respect of the debts due to the vendor, just as if he has himself collected cash from his debtors and remitted the proceeds to the purchasing company. ➤ The vendor is considered a debtor in respect of cash paid to his creditors by the purchasing company. The balance of the cash collected, less paid, will represent the amount due to or by the vendor, arising from debtors and creditors balances which have been taken over, subject to any collection expenses. ➤ The balance in the suspense accounts will be always equal to the amount of debtors and creditors taken over remaining unadjusted at any time. 	

Question 1

Define Pre-incorporation expenses in brief.

Answer

Pre-incorporation expenses denote expenses incurred by the promoters for the purposes of the company before its incorporation.

Broadly, these include expenses in connection with:

- (a) preliminary analysis of the conceived idea,
- (b) detailed investigation in terms of technical feasibility and commercial viability to establish the soundness of the proposition,
- (c) preparation of 'project report' or 'feasibility report' and its verification through independent appraisal authority (before giving final approval to the proposition) and
- (d) organisation of funds, property and managerial ability and assembling of other business elements.

Working Notes:

Pre incorporation period = 1st April, 2009 to 31st July, 2009

i.e. 4 months

1. Sales ratio

Let the monthly sales for first 6 months (i.e. from 1.4.2009 to 30.09.09) be = x

Then, sales for 6 months = 6x

Monthly sales for next 6 months (i.e. from 1.10.09 to 31.3.2010) = $x + \frac{2}{3}x = \frac{5}{3}x$

Then, sales for next 6 months = $\frac{5}{3}x \times 6 = 10x$

Total sales for the year = 6x + 10x = 16x

Monthly sales in the pre incorporation period = ₹ 19,20,000/16 = ₹ 1,20,000

Total sales for pre-incorporation period = ₹ 1,20,000 x 4 = ₹ 4,80,000

Total sales for post incorporation period = ₹ 19,20,000 – ₹ 4,80,000 = ₹ 14,40,000

Sales Ratio = 4,80,000 : 14,40,000 = 1 : 3

Question 4

Rama Udyog Limited was incorporated on August 1, 2011. It had acquired a running business of Rama & Co. with effect from April 1, 2011. During the year 2011-12, the total sales were ₹ 36,00,000. The sales per month in the first half year were half of what they were in the later half year. The net profit of the company, ₹ 2,00,000 was worked out after charging the following expenses:

(i) Depreciation ₹ 1,23,000, (ii) Directors' fees ₹ 50,000, (iii) Preliminary expenses ₹ 12,000, (iv) Office expenses ₹ 78,000, (v) Selling expenses ₹ 72,000 and (vi) Interest to vendors upto August 31, 2011 ₹ 5,000.

Please ascertain pre-incorporation and post-incorporation profit for the year ended 31st March, 2012.

Answer

Statement showing pre and post incorporation profit for the year ended 31st March, 2012

Particulars	Total Amount ₹	Basis of Allocation	Pre-incorporation Rs,	Post-Incorporation ₹
Gross Profit	5,40,000	2:7	1,20,000	4,20,000
Less: Depreciation	1,23,000	1:2	41,000	82,000
Director's Fees	50,000	Post	-	50,000

Preliminary Expenses	12,000	Post	-	12,000
Office Expenses	78,000	1:2	26,000	52,000
Selling Expenses	72,000	2:7	16,000	56,000
Interest to vendors	<u>5,000</u>	Actual	<u>4,000</u>	<u>1,000</u>
Net Profit (₹ 33,000 being pre-incorporation profit is transferred to capital reserve Account)	<u>2,00,000</u>		<u>33,000</u>	<u>1,67,000</u>

Working Notes:

1. Sales ratio

The sales per month in the first half year were half of what they were in the later half year. If in the later half year, sales per month is Re.1 then it should be 50 paise per month in the first half year. So sales for the first four months (i.e. from 1st April, 2011 to 31st July, 2011) will be $4 \times .50 = ₹ 2$ and for the last eight months (i.e. from 1st August, 2011 to 31st March, 2012) will be $(2 \times .50 + 6 \times 1) = ₹ 7$. Thus sales ratio is 2:7.

2. Time ratio

1st April, 2011 to 31st July, 2011 : 1st August, 2011 to 31st March, 2012

= 4 months : 8 months = 1:2

Thus, time ratio is 1:2.

3. Gross profit

Gross profit = Net profit + All expenses

= ₹ 2,00,000 + ₹ (1,08,000+15,000+50,000+12,000+78,000+72,000+5,000)

= ₹ 2,00,000 + ₹ 3,40,000 = ₹ 5,40,000.

Question 5

A firm M/s. Alag, which was carrying on business from 1st July, 2011 gets itself incorporated as a company on 1st November, 2011. The first accounts are drawn upto 31st March 2012. The gross profit for the period is ₹ 56,000. The general expenses are ₹ 14,220; Director's fee ₹ 12,000 p.a.; Incorporation expenses ₹ 1,500. Rent upto 31st December was ₹ 1,200 p.a. after which it is increased to ₹ 3,000 p.a. Salary of the manager, who upon incorporation of the company was made a director, is ₹ 6,000 p.a. His remuneration thereafter is included in the above figure of fee to the directors.

Give Statement showing pre and post incorporation profit. The net sales are ₹ 8,20,000, the monthly average of which for the first four months is one-half of that of the remaining period. The company earned a uniform profit. Interest and tax may be ignored.

Answer

Statement showing pre and post-incorporation profits

<i>Particulars</i>	<i>Basis</i>	<i>Pre – incorporation period</i>	<i>Post- incorporation period</i>	<i>Total</i>
		₹	₹	₹
Gross Profit	Sales ratio	16,000	40,000	56,000
Less: General expenses	Time ratio	6,320	7,900	14,220
Directors' fee	Actual	-	5,000	5,000
Formation expenses	Actual	-	1,500	1,500
Rent (600 + 750)	W.N. 2	400	950	1,350
Manager's salary	Actual	<u>2,000</u>	<u>-</u>	<u>2,000</u>
Net Profit transferred to:				
Capital Reserve		7,280	-	-
P & L A/c	-	<u>-</u>	<u>24,650</u>	<u>31,930</u>

Working Notes:

1. Calculation of sales ratio

Let the average monthly sales of first four months = 100
and next five months = 200

Total sales of first four months = $100 \times 4 = 400$ and

Total sales of next five months = $200 \times 5 = 1,000$

The ratio of sales = $400 : 1,000 = 2 : 5$

2. Rent

Till 31st December, 2011, rent was ₹ 1,200 p.a. i.e. ₹ 100 p.m.

So, Pre-incorporation rent = ₹ 100 x 4 months = ₹ 400

Post-incorporation rent = (₹ 100 x 2 months) + (₹ 250 x 3 months) = ₹ 950

Accounting for Bonus Issue

BASIC CONCEPTS

- Bonus Issue means an offer of free additional shares to existing shareholders. A company may decide to distribute further shares as an alternative to increase the dividend payout.
- Bonus Issue is also known as a "scrip issue" or "capitalization issue".
- Bonus issue has following major effects :
 - Share capital gets increased according to the bonus issue ratio
 - Liquidity in the stock increases.
 - Effective Earnings per share, Book Value and other per share values stand reduced.
 - Market price gets adjusted on issue of bonus shares.
 - Accumulated profits get reduced.
- Bonus shares can be issued from following :
 - General Reserves
 - Balance in Profit and Loss Account
 - Capital Reserve realized in cash
 - Securities Premium realized in cash
 - Capital Redemption Reserve
- The SEBI (Disclosure and Investor Protection) Guidelines, 2000 which came into force w.e.f. 27th day of January, 2000 require that the company while issuing bonus shares shall ensure the following :
 - (i) No issuer shall make a bonus issue of equity shares unless it has made reservation of equity shares of the same class in favour of the holders of outstanding [compulsorily] convertible debt instruments [,if any,] in proportion to the convertible part thereof.
 - (ii) The equity shares [so] reserved for the holders of fully or partly [compulsorily] convertible debt instruments shall be issued at the time of conversion of such convertible debt instruments on the same terms or same proportion [at] which the bonus shares were issued.

Internal Reconstruction

BASIC CONCEPTS

- Reconstruction is a process by which affairs of a company are reorganized by revaluation of assets, reassessment of liabilities and by writing off the losses already suffered by reducing the paid up value of shares and/or varying the rights attached to different classes of shares.
- Reconstruction account is a new account opened to transfer the sacrifice made by the shareholders for that part of capital which is not represented by lost assets.
- Reconstruction account is utilized for writing-off fictitious and intangible assets, writing down over-valued fixed assets, recording new liability etc.
- If some credit balance remains in the reconstruction account, the same should be transferred to the capital reserve account.
- Methods of Internal reconstruction :
 - Alteration of share capital :
 - Sub-divide or consolidate shares into smaller or higher denomination
 - Conversion of share into stock or vice-versa
 - Variation of shareholders' rights :
 - Only the specific rights are changed. There is no change in the amount of capital.
 - Reduction of share capital
 - Compromise, arrangements etc.
 - Surrender of Shares.

12% Debentures	4,00,000	2,00,000
Total	7,00,000	3,00,000

The following scheme of internal reconstruction was framed and implemented, as approved by the court and concerned parties:

- (1) Uncalled capital is to be called up in full and then all the shares to be converted into Equity Shares of ₹ 40 each.
- (2) The existing shareholders agree to subscribe in cash, fully paid up equity shares of 40 each for ₹ 12,50,000.
- (3) Trade Creditors are given option of either to accept fully paid equity shares of ₹ 40 each for the amount due to them or to accept 70% of the amount due to them in cash in full settlement of their claim. Trade Creditors for ₹ 7,50,000 accept equity shares and rest of them opted for cash towards full and final settlement of their claim.
- (4) Mr. Shiv agrees to cancel debentures amounting to ₹ 2,00,000 out of total debentures due to him and agree to accept 15% Debentures for the balance amount due. He also agree to subscribe further 15% Debentures in cash amounting to ₹ 1,00,000.
- (5) Mr. Ganesh agrees to cancel debentures amounting to ₹ 50,000 out of total debentures due to him and agree to accept 15% Debentures for the balance amount due.
- (6) Land & Building to be revalued at ₹ 51,84,000, Machinery at ₹ 7,20,000, Computers at ₹ 4,00,000, Stock at ₹ 3,50,000 and Trade Debtors at 10% less to as they are appearing in Balance Sheet as above.
- (7) Outstanding Expenses are fully paid in cash.
- (8) Goodwill and Profit & Loss A/c will be written off and balance, if any, of Capital Reduction A/c will be adjusted against Capital Reserve.

You are required to pass necessary Journal Entries for all the above transactions and draft the company's Balance Sheet immediately after the reconstruction.

Amalgamation

BASIC CONCEPTS AND STEPS TO SOLVE THE PROBLEMS

- Amalgamation means joining of two or more existing companies into one company, the joined companies lose their identity and form themselves into a new company.
- In absorption, an existing company takes over the business of another existing company. Thus, there is only one liquidation and that is of the merged company.
- A company which is merged into another company is called a transferor company or a vendor company.
- A company into which the vendor company is merged is called transferee company or vendee company or purchasing company.
- In amalgamation in the nature of merger there is genuine pooling of:
 - Assets and liabilities of the amalgamating companies,
 - Shareholders' interest, Also the business of the transferor company is intended to be carried on by the transferee company.
- In amalgamation in the nature of purchase, one company acquires the business of another company.
- Purchase Consideration can be defined as the aggregate of the shares and securities issued and the payment made in form of cash or other assets by the transferee company to the share holders of the transferor company.
- There are two main methods of accounting for amalgamation:
 - The pooling of interests method, and
 - The purchase method.
- Under pooling of interests method, the assets, liabilities and reserves of the transferor company will be taken over by transferee company at existing carrying amounts.

Under purchase method, the assets and liabilities of the transferor company should be incorporated at their existing carrying amounts or the purchase consideration should be allocated to individual identifiable assets and liabilities on the basis of their fair values at the date of amalgamation.

6.2 Accounting

Question 1

What are the conditions, which, according to AS 14 on Accounting for Amalgamations, must be satisfied for an amalgamation in the nature of merger?

Answer

According to AS 14 on Accounting for Amalgamations; the following conditions must be satisfied for an *amalgamation in the nature of merger*:

- (i) All the assets and liabilities of the transferor company become, after amalgamation, the assets and liabilities of the transferee company.
- (ii) Shareholders holding not less than 90% of the face value of the equity shares of the transferor company (other than the equity shares already held therein, immediately before the amalgamation, by the transferee company or its subsidiaries or their nominees) become equity shareholders of the transferee by virtue of the amalgamation.
- (iii) The consideration for the amalgamation receivable by those equity shareholders of the transferor company who agree to become equity shareholders of the transferee company is discharged by the transferee company wholly by the issue of equity shares in the transferee company, except that cash may be paid in respect of any fractional shares.
- (iv) The business of the transferor company is intended to be carried on, after the amalgamation, by the transferee company.
- (v) No adjustment is intended to be made to the book values of the assets and liabilities of the transferor company when they are incorporated in the financial statements of the transferee company except to ensure uniformity of accounting policies.
- (vi) All reserves & surplus of the transferor company shall be preserved by the transferee company.

If any one of the condition is not satisfied in a process of amalgamation, it cannot be treated as amalgamation in the nature of merger.

Question 2

Distinguish between (i) the pooling of interests method and (ii) the purchase method of recording transactions relating to amalgamation.

Answer

The following are the points of distinction between (i) the pooling of interests method and (ii) the purchase method of recording transactions relating to amalgamation:

- (i) The pooling of interests method is applied in case of an amalgamation in the nature of merger whereas purchase method is applied in the case of an amalgamation in the nature of purchase.

- (ii) In the pooling of interests method all the reserves of the transferor company are also recorded by the transferee company in its books of account while in the purchase method the transferee company records in its books of account only the assets and liabilities taken over, the reserves, except the statutory reserves, of the transferor company are not aggregated with those of the transferee company.
- (iii) Under the pooling of interests method, the difference between the consideration paid and the share capital of the transferor company is adjusted in the general reserve or other reserves of the transferee company. Under the purchase method, the difference between the consideration and net assets taken over is treated by the transferee company as goodwill or capital reserve.
- (iv) Under the pooling of interests method, the statutory reserves are recorded by the transferee company like all other reserves without opening amalgamation adjustment account. In the purchase method, while incorporating statutory reserves the transferee company has to open amalgamation adjustment account debiting it with the amount of the statutory reserves being incorporated.

All the bills receivable held by V Ltd. were P Ltd.'s acceptances.

On 1st April 2012, P Ltd. took over V Ltd in an amalgamation in the nature of merger. It was agreed that in discharge of consideration for the business P Ltd. would allot three fully paid equity shares of ₹ 10 each at par for every two shares held in V Ltd. It was also agreed that

6.12 Accounting

12% debentures in V Ltd. would be converted into 13% debentures in P Ltd. of the same amount and denomination.

Expenses of amalgamation amounting to ₹ 1 lakh were borne by P Ltd.

You are required to :

- (i) Pass journal entries in the books of P Ltd. and
- (ii) Prepare P Ltd.'s Balance Sheet immediately after the merger.

Working Note :**Computation of purchase consideration**

The purchase consideration was discharged in the form of three equity shares of P Ltd. for every two equity shares held in V Ltd.

$$\text{Purchase consideration} = ₹ 6,000 \text{ lacs} \times \frac{3}{2} = ₹ 9,000 \text{ lacs.}$$

Note : The question is silent regarding the treatment of fictitious assets and therefore they are not transferred to the amalgamated company. Thus the cost of issue of debentures shown in the balance sheet of the V Ltd. company is not transferred to the P Ltd. company.

The stock of A Ltd. includes goods worth ₹ 1,00,000 which was sold by B

Ltd. on profit. Unrealized profit on this stock will be $\frac{40,000}{1,60,000} \times 1,00,000$ 25,000

As B Ltd purchased assets of A Ltd. at a price 10% less than the book value, 10% need to be adjusted from the stock i.e., 10% of ₹ 1,00,000. (10,000)

Amount of unrealized profit 15,000

Self-Balancing Ledgers

BASIC CONCEPTS

- Self Balancing Ledger System implies a system of ledger keeping which classifies ledgers as per nature of transactions.
- In this system, generally three ledgers, namely debtor ledger, creditor ledger and main ledger (containing remaining accounts) are prepared.
- In such a case "General Ledger Adjustment Account" is prepared in each of the subsidiary ledgers. The General ledger would have Bought Ledger Adjustment Account (in reality, Total Creditors Account) and Sales Ledger Adjustment Account (in reality, Total Debtors Account). These accounts are known as Control Accounts.

Question 1

Write short note on Self balancing ledgers.

Answer

A self balancing ledger system implies a system of ledger keeping which classifies ledgers as per nature of transactions namely Sales Ledger, Bought Ledger, General Ledger etc. and also make them to balance independently. In order to make each ledger self-balancing, an extra account called General Ledger Adjustment Account is opened in each of the sales ledger and bought ledger. Normally, the accounts of individual debtors are maintained recording credit sales, cash collections, discount, bad debts etc, in Debtors Ledger or Sales Ledger. The General Ledger Adjustment account in the Sales Ledger gives a summary of all these transactions in a reverse manner. Similarly in Bought ledger, General Ledger Adjustment account gives a summary of all transactions of the Bought Ledger in a reverse manner. Against these ledger adjustment accounts, two other adjustment accounts are maintained in the General Ledger to complete the double entry.

These adjustment accounts are known as Control Accounts. The correctness of individual balances in each ledger would be verified by extracting its balances and agreeing them with the balance of the Control Account. The object of the system is to identify errors and to facilitate their quick detection with the minimum effort.

Question 2

Distinguish between Self and Sectional Balancing System.

Answer

A self balancing ledger system implies a system of ledger keeping which classifies ledgers as per nature of transactions namely, Sales Ledger, Bought Ledger, General Ledger etc. and also make them to balance independently.

In order to make each ledger self-balancing, an extra account called General Ledger Adjustment Account is opened in each of the sales ledger and bought ledger. Normally, the accounts of individual debtors are maintained recording credit sales, cash collections, discount, bad debts etc. in Debtors Ledger or Sales Ledger. The General Ledger Adjustment account in the Sales Ledger gives a summary of all these transactions in reverse manner. Similarly in Bought ledger, general ledger adjustment account gives a summary of all transactions of the Bought Ledger in a reverse manner. Against these ledger adjustment accounts, two other adjustment accounts are maintained in the General Ledger to complete the double entry.

- (a) Bought Ledger Adjustment Account.
- (b) Sales Ledger Adjustment Account.

These adjustment accounts are known as Control Accounts. The correctness of individual balances in each ledger would be verified by extracting its balances and agreeing them with the balance of the Control Account. The object of the system is to identify errors and to facilitate their quick detection with the minimum effort.

Under sectional balancing system, only two additional accounts (i) Total Debtors Account; and (ii) Total Creditors Account are kept in the General Ledger. Thus, only the totals account for each of the subsidiary ledgers is opened in the General Ledger and no Control Account/Adjustment Account is opened in the subsidiary ledger. It would mean that whereas accounts of individual customers would be maintained in the Sales Ledger; in the General Ledger, the Total Debtors Account would be posted by the (monthly) totals of various transactions with credit customers. The balance in the Total Debtors Account should be equal to the total of balances shown by the accounts of individual customers. A difference would show that there are some errors somewhere. In the same way, the accuracy of individual supplier's account may be checked by comparing the total of their balances with the balance of the Total Creditors Account. A trial balance can be prepared on the basis of General Ledger only, without using Debtors' Ledger and Creditors' Ledger since the double entry is completed in the General Ledger itself.

Question 3

State with reasons, whether the following statements are true or false:

- (a) *Under the self balancing system the general ledger adjustment account is always opened in the general ledger.*

8.3 Accounting

- (b) *Purchase Ledger Adjustment Account under sectional balancing system is also known as Creditors Ledger Control Account.*
- (c) *In self balancing system, whenever a balance is transferred from an account in one ledger to that in another, only one entry is recorded through the respective ledger.*

Answer

- (a) **False-** Under the self balancing system, general ledger adjustment account is opened in each of the sales ledger and purchases ledger. In general ledger, two adjustment accounts namely sales ledger adjustment account and purchases ledger adjustment accounts are maintained.
- (b) **True-** Purchase ledger adjustment account is in reality, total creditors account, hence also known as creditors ledger control account under sectional balancing system.
- (c) **False-** Whenever a balance is transferred from one account in one ledger to that in another, the entry is recorded through the journal. Also an additional entry is made in the control accounts for recording the corresponding effect.

Question 5

From the following information available from the books of a trader from 1.1.2011 to 31.3.2011, you are required to draw up the Debtors Ledger Adjustment Account in the General Ledger:

- Total sales amounted to ₹ 1,80,000 including the sale of old zerox machine for ₹ 4,800 (book value ₹ 8,000). The total cash sales were 80% less than the total credit sales.
- Cash collections from debtors amounted to 70% of the aggregate of the opening debtors and credit sales for the period. Debtors were allowed a cash discount of ₹ 20,000.
- Bills receivable drawn during the three months totalled ₹ 30,000 of which bills amounting to ₹ 10,000 were endorsed in favour of suppliers. Out of the endorsed bills, one bill for ₹ 6,000 was dishonoured for non-payment as the party became insolvent, his estate realized nothing.
- Cheque received from customers ₹ 8,000 were dishonoured, a sum of ₹ 2,000 was irrecoverable; Bad debts written off in the earlier years realised ₹ 11,000.
- Sundry debtors as on 1.1.2011 stood at ₹ 50,000.

B/R and B/P dishonoured	5,000	5,000
Debit Balances as on 30.6.2011	30,000	-
Credit Balances as on 31.6.2011	?	72,000

(Hints: Total of Sales Ledger Control Account = ₹ 5,57,200; and Purchases Ledger Control Account = ₹ 5,11,000)

2. From the following information prepare Sales Ledger Adjustment Account and Bought Ledger Adjustment Account in the General Ledger:

On 1.4.2010 balance in bought ledger (Dr.) ₹ 10,000, (Cr.) ₹ 96,000, balance in sales ledger (Dr.) ₹ 1,41,880 (Cr.) ₹ 2,240:

31.3.2011	₹	31.3.2011	₹
Purchases	5,40,000	Discount received	7,200
Purchases return	20,000	Bills receivable received	40,000
Total sales	7,68,000	Bills payable issued	22,400
Cash sales	40,000	Reserve for doubtful debts	9,160
Sales return	10,000	Cash paid to customers	1,840
Cash received from customers	6,24,000	Bills receivable dishonoured	6,000
Discount allowed	11,200	Bought ledger balance	10,400
Cash paid to suppliers	4,80,000	Sales ledger balanced	1,83,200
Transfer from sales to bought ledger	20,800		

(Hints: Total of Sales Ledger Adjustment Account = ₹ 8,91,440; and Bought Ledger Adjustment Account = ₹ 6,46,400)

3. The following information is extracted from a set of books for the half-year ended 30th June, 2011

	₹
Sales	5,63,000
Purchases	3,22,000
Returns outward	7,600
Cash received from debtors	1,84,200
Bills payable accepted	1,20,000
Returns inward	16,800
Cash paid to creditors	1,80,200
Bills receivable received	1,60,000
Discounts received	4,200
Bad debts written off	12,000
Discount allowed	10,800
Transfers from purchases ledger	6,800

The total of the sales ledger balances on 1st Jan, 2011 was ₹ 3,20,800 and that of the purchases ledger balances on the same date was ₹ 1,86,400.

Prepare Sales Ledger and Purchases Ledger Adjustment Accounts from the foregoing information.

(Hints: Total of Sales Ledger Adjustment Account = ₹ 8,83,800; and Purchases Ledger Adjustment Account = ₹ 5,08,400)

4. From the following particulars prepare customers control account in general ledger:

	₹
Opening balance in customers ledger (Dr.)	2,35,000
Opening balance in customers ledger (Cr.)	3,500
Goods sold during the year	7,65,000
Returns inwards	15,000

Bills received	1,10,000
Discount allowed	9,000
Cheque received dishonoured	5,000
Bills received dishonoured	7,000
Bad debts	9,000

A debit of ₹ 1,500 is to be transferred from customers ledger to suppliers ledger. Similarly a credit entry ₹ 1,600 is to be transferred from suppliers ledger to customers ledger. Closing credit balance in customers ledger is ₹ 3,000.

(Hints: Total of Customers Control Account = ₹ 10,15,000)

5. The following transactions have been extracted from the books of Mr. X. You are required to prepare the Sales Ledger Adjustment Account as on 31.3.2011:

8.17 Accounting

	₹
<i>Debtors balance on 1.3.2011</i>	50,000

Financial Statements of Not-for-Profit Organisations

BASIC CONCEPTS AND STEPS TO SOLVE THE PROBLEMS

- A not-for-profit organization is a legal and accounting entity that is operated for the benefit of the society as a whole, rather than for the benefit of a sole proprietor or a group of partners or shareholders. Financial Statements of such organizations consists of:
 - Receipts and Payments Account
 - Income and Expenditure Account
 - Balance Sheet
- The income and expenditure account is equivalent to the Profit and Loss Account of a business enterprise. It is an account which is widely adopted by not-for-profit concerns and is prepared by following accrual principle. Only items of revenue nature pertaining to the period of account are included therein.
- Educational institutions are different from other not-for-profit organizations both in terms of their sources of income as well as the freedom to choose their accounting years.

Note: Non-profit organizations registered under section 25 of the Companies Act, 1956 are required to prepare their Income and Expenditure account and Balance Sheet as per the revised Schedule VI to the Companies Act, 1956. All the questions in this chapter have been solved on the basis that Non-profit organization referred to in the questions are not registered under section 25 of the Companies Act, 1956

Question 1 Write short notes on:

- (a) Receipts and Expenditure Account.
- (b) Receipts and Payments Account.

Answer

- (a) In the case of professionals, Receipts and Payments Account, Income and Expenditure Account and Balance Sheet are generally prepared to show the results of their activities and their financial position. However, some professionals also prepare Receipts and Expenditure Account to show final result of their professional activities.

Such an account includes all expenses on the basis of mercantile system, i.e. accrual basis but for recording income, cash system is followed. In other words, to find out the profit, all outstanding expenses are taken into account but the fees and charges that are outstanding or the work-in progress are not considered. The reason for this treatment is that professionals consider it imprudent and risky to recognize the outstanding fees. Therefore, the difference between the profit as shown by Income and Expenditure Account and Receipts and Expenditure Account arises on account of non-recognition of outstanding fees and charges and work-in-progress in Receipts and Expenditure Account.

- (b) Receipts and Payments Account is an elementary form of account commonly adopted by non-profit making concerns such as hospitals, clubs, societies etc. for recording cash and bank transactions. It starts with the opening cash or bank balance (or an overdraft) and is debited with all sums received and credited with amounts paid out whether or not such receipts and payments relate to that period. All the receipts and payments, whether of revenue or capital nature, are included in this account. The balance of this account at the end of year represents the difference between the amount received and paid out i.e. the balance of cash in hand and at the bank or bank overdraft.

Question 2

Differentiate Receipt and Payment with Income and Expenditure account.

Answer

Non-profit making organizations such as public hospitals, public educational institutions, clubs etc., conventionally prepare Receipt and Payment Account and Income and Expenditure Account to show periodic performance for a particular accounting period. The distinguishing features of both the accounts can be summarized as:

Receipt and Payment Account is an elementary form of account consisting of a classified summary of cash receipts and payments over a certain period together with cash balances at the beginning and close of the period. The receipts are entered on the left hand side and payments on the right hand side i.e. same sides as those on which they appear in cash book. All the receipts and payments, whether of revenue or capital nature, are included in this account. The balance of the account at the end of a period represents the difference between the amount of cash received and paid up. It is always in debit since it is made up of cash in hand and at bank.

Income and Expenditure Account resembles a Profit and Loss Account and serves the same function in respect of a non-profit making concern as the last mentioned account does for a firm, carrying on business or trade. Income and Expenditure Account is drawn up in the same form as

the Profit and Loss Account. Expenditure of revenue nature only is shown on the debit side, and income and gains of revenue nature are shown on the credit side. Income and Expenditure Account contains all the items of income and expenditure relevant to the period of account, whether received or paid out as well as that which have fallen due for recovery or payment. Capital receipts, prepayments of income and capital expenditures, prepaid expenses are excluded. It does not start with any opening balance. The closing balance represents the amount by which the income exceeds the expenditure only or vice-versa.

Question 3

State with reasons, whether the following statement is true or false:

Receipts and Payments Account highlights total income and expenditure.

Answer

False- Receipts and payments account is a classified summary of cash receipts and payments over a certain period together with cash and bank balances at the beginning and close of the period.

Question 4

During the year ended 31st March, 2012, Sachin Cricket Club received subscriptions as follows:

	₹
<i>For year ending 31st March, 2011</i>	<i>12,000</i>
<i>For year ending 31st March, 2012</i>	<i>6,15,000</i>
<i>For year ending 31st March, 2013</i>	<i>18,000</i>
<i>Total</i>	<i>6,45,000</i>

There are 500 members and annual subscription is ₹ 1,500 per member.

On 31st March, 2012, a sum of ₹ 15,000 was still in arrears for subscriptions for the year ended 31st March, 2011.

Ascertain the amount of subscriptions that will appear on the credit side of Income and Expenditure Account for the year ended 31st March, 2012. Also show how the items would appear in the Balance Sheet as on 31st March, 2011 and the Balance Sheet as on 31st March, 2012.

Accounts from Incomplete Records

BASIC CONCEPTS AND STEPS TO SOLVE THE PROBLEMS

- Single entry system is generally found in sole trading concerns or even in partnership firms to some extent but never in case of limited liability companies on account of legal requirements.
- There are three types of single entry systems:
 - Pure Single Entry
 - Simple Single Entry
 - Quasi Single Entry
- Single entry system ignores the concept of duality and therefore, transactions are not recorded in their two-fold aspects.
- Closing Capital = Opening Capital + Additional Capital – Drawings + Profits

Question 1

Working Notes:

1. Calculation of total sales and cost of goods sold

Cash sales = 10% of total sales

Credit sales = 90% of total sales = ₹ 4,50,000

$$\text{Total sales} = \frac{4,50,000}{90} \times 100 = 5,00,000$$

Cash sales = 10% of 5,00,000 = ₹ 50,000

2. Calculation of total purchases and credit purchases

Cash purchases = ₹ 65,000

Credit purchases = 80% of total purchases

Cash purchases = 20% of total purchases

$$\text{Total purchases} = \frac{65,000}{20} \times 100 = ₹ 3,25,000$$

$$\text{Credit purchases} = 3,25,000 - 65,000 = ₹ 2,60,000$$

	<u>1,400.00</u>			<u>1,400.00</u>

Balance Sheet as at 31st March, 2011

<i>Liabilities</i>	(₹ in '000s)	<i>Assets</i>	(₹ in '000s)
Paid-up capital	1,000.00	<i>Fixed assets:</i>	
General reserve:		Plant & machinery	1,400.00
Balance at the beginning (W.N.14)	1333.34	Other fixed assets (Bal. Fig.)	1066.67
Proposed addition (W.N.2)	666.67	<i>Current Assets:</i>

10% Loan A/c (W.N.4)	600.00	Sundry debtors (W.N.13)	933.33
Current liabilities (W.N.5)	<u>1,200.00</u>	Cash at bank	<u>125.00</u>
	<u>4,866.67</u>		<u>4,866.67</u>

Working Notes:

1. Proposed dividend to paid up capital is 2:3.

$$\begin{aligned} \text{i.e. Proposed dividend} &= \frac{2}{3} \text{ of paid up capital} \\ &= ₹ 1,000.00 \text{ thousand} \times \frac{2}{3} = ₹ 666.67 \text{ thousand} \end{aligned}$$

2. Transfer to General Reserve is equal to proposed dividend i.e., 1:1.

Proposed dividend is ₹ 666.67 thousand,
therefore general reserve is also ₹ 666.67 thousand.

3. Profit carried forward to Balance Sheet = 10% of Proposed Dividend

$$\text{i.e., } ₹ 666.67 \text{ thousand} \times 10\% = ₹ 66.66 \text{ thousand}$$

4. 10% Loan implies interest on loan being 10%

$$\text{i.e. } ₹ 60.00 \text{ thousand} \times \frac{100}{10} = ₹ 600.00 \text{ thousand}$$

5. Loan is half of current liabilities which means current liabilities are twice of loan

$$\text{i.e., } ₹ 600.00 \text{ thousand} \times 2 = ₹ 1,200.00 \text{ thousand}$$

6. Current Ratio i.e., $\frac{\text{Current Assets}}{\text{Current Liabilities}} = 2:1$ or $\frac{2}{1}$

$$\begin{aligned} \text{i.e. Current Assets} &= 2 \times \text{Current Liabilities} \\ \text{or } 2 \times ₹ 1,200.00 \text{ thousand} &= ₹ 2,400.00 \text{ thousand} \end{aligned}$$

7. Current Net Profit	(₹ in '000s)
Proposed dividend	666.67
Transfer to general reserve	666.67
Profit and loss balance transferred to balance sheet	<u>66.66</u>
	1,400.00
Less: Balance b/f	<u>(140.00)</u>
Net profit for the year	<u>1,260.00</u>

8. Provision for taxation is equal to current net profit i.e., = ₹ 1,260.00 thousand

9. Gross profit being balancing figure of Profit and Loss A/c = ₹ 3,220.00 thousand

10. Gross profit = 60% of sales i.e.

$$₹ 3,220.00 \text{ thousand} = 60\% \text{ of sales}$$

$$\text{Or, sales} = ₹ 3,220 \text{ thousand} \times \frac{100}{60} = ₹ 5,366.67 \text{ thousand}$$

11. Closing stock is 25% of sales i.e., 25% of ₹ 5,366.67 thousand = ₹ 1,341.67 thousand
12. Purchases being balancing figure of Trading A/c = ₹ 2,613.33 thousand
13. Debtors = Current Assets – Closing Stock – Cash at Bank
 = ₹ 2,400.00 thousand – ₹ 1,341.67 thousand – ₹ 125.00 thousand
 = ₹ 933.33 thousand
14. Balance of general reserve at the beginning of the year is twice of the amount transferred to general reserve during the year i.e. 2 x ₹ 666.67 thousand = ₹ 1,333.34 thousand
15. Other fixed assets = Total of balance sheet (liabilities side)- Current assets – Plant and machinery
 i.e., ₹ 4,866.67 thousand - ₹ 2,400.00 thousand – ₹ 1,400.00 thousand
 = ₹ 1,066.67 thousand

Question 13

Ram carried on business as retail merchant. He has not maintained regular account books. However, he always maintained ₹ 10,000 in cash and deposited the balance into the bank account. He informs you that he has sold goods at profit of 25% on sales.

Following information is given to you:

Assets and Liabilities	As on 1.4.2010	As on 31.3.2011
Cash in Hand	10,000	10,000
Sundry Creditors	40,000	90,000
Cash at Bank	50,000 (Cr.)	80,000 (Dr.)
Sundry Debtors	1,00,000	3,50,000
Stock in Trade	2,80,000	?

Analysis of his bank pass book reveals the following information:

- (a) Payment to creditors ₹ 7,00,000
- (b) Payment for business expenses ₹ 1,20,000
- (c) Receipts from debtors ₹ 7,50,000
- (d) Loan from Laxman ₹ 1,00,000 taken on 1.10.2010 at 10% per annum
- (e) Cash deposited in the bank ₹ 1,00,000

He informs you that he paid creditors for goods ₹ 20,000 in cash and salaries ₹ 40,000 in cash. He has drawn ₹ 80,000 in cash for personal expenses. During the year Ram had not introduced any additional capital. Surplus cash if any, to be taken as cash sales.

Question 2

Welwash (Pvt.) Ltd. sells washing machines for outright cash as well as on hire-purchase basis. The cost of a washing machine to the company is ₹ 10,500. The company has fixed cash price of the machine at ₹ 12,300 and hire-purchase price, at ₹ 13,500 payable as to ₹ 1,500 down and the balance in 24 equal monthly instalments of ₹ 500 each.

On 1st April, 2010 the company had 26 washing machines lying in its showroom. On that date 3 instalments had fallen due, but not yet received and 675 instalments were yet to fall due in respect of machines lying with the hire purchase customers.

During the year ended 31st March, 2011 the company sold 130 machines on cash basis and 80 machines on hire-purchase basis. After paying five monthly instalments, one customer failed to pay subsequent instalments and the company had to repossess the washing machine. After spending ₹ 1,000 on it, the company resold it for ₹ 11,500.

On 31st March, 2011 there were 21 washing machines in stock, 810 instalments were yet to fall due and 5 instalments had fallen due, but not yet received in respect of washing machines lying with the hire-purchase customers. Total selling expenses and office expenses including depreciation on fixed assets totalled ₹ 1,60,000 for the year.

You are required to prepare for the Accounting Year ended 31st March, 2011:

- Hire purchase Trading Account, and
- Trading and Profit and Loss Account showing net profit earned by the company after making provision for income-tax @ 35%.

Question 6

Computer point sells computers on Hire-purchase basis at cost plus 25%. Terms of sale are ₹ 5,000 down payment and eight monthly instalments of ₹ 2,500 for each computer.

The following transactions took place during the financial year 2010-11:

Number of instalments not yet due as on 1.4.2010	= 25
Number of instalments due but not collected as on 1.4.2010	= 5

During the financial year 240 computers were sold. Out of the above sold computers during the year the outstanding position were as follows as on 31.3.2011:

Instalments not yet due:

- (i) *Eight instalments on 50 computers.*
- (ii) *Six instalments on 30 computers.*
- (iii) *Two instalments on 10 computers.*

Instalments due but not collected:

Two instalments on 5 computers during the year. Two computers on which five instalments were due and two instalments not yet due were repossessed out of sales effected during current year. Repossessed stock is valued at 50% of cost. All instalments have been received. You are asked to prepare Hire-Purchase Trading Account for the year ending on 31.3.2011.

Instalments collected during the year		<u>45,15,000</u>

* Hire purchase price of a computer = ₹ 5,000 + (₹ 2,500 x 8) = ₹ 25,000.

2. Value of repossessed computers

Hire purchase price of two repossessed computers = $[\text{₹ } 5,000 + (8 \times \text{₹ } 2,500)] \times 2$
computers
= ₹ 50,000

Cost price of the repossessed computers = $\frac{\text{₹ } 50,000}{125} \times 100 = \text{₹ } 40,000$

Value of repossessed computers = ₹ 40,000 x 50% = ₹ 20,000

Alternatively Hire Purchase Trading Account can also be prepared in the following manner:

In other words ₹15,000 x (25/125) = ₹ 3,000

Note: It is presumed that all the figures given in the question is at invoice price.

Question 9

On 1st April, 2012, Fastrack Motors Co. sells a truck on hire purchase basis to Teja Transport Co. for a total hire purchase price of ₹ 9,00,000 payable as to ₹ 2,40,000 as down payment and the balance in three equal annual instalments of ₹ 2,20,000 each payable on 31st March 2013, 2014 and 2015.

The hire vendor charges interest @ 10% per annum.

You are required to ascertain the cash price of the truck for Teja Transport Co. Calculations may be made to the nearest rupee.

Answer

$$\text{Ratio of interest and amount due} = \frac{\text{Rate of interest}}{100 + \text{Rate of interest}} = \frac{10}{110} = \frac{1}{11}$$

There is no interest element in the down payment as it is paid on the date of the transaction. Instalments paid after certain period includes interest portion also. Therefore, to ascertain cash price, interest will be calculated from last instalment to first instalment as follows:

Calculation of Interest and Cash Price

No. of instalments	Amount due at the time of instalment	Interest	Cumulative Cash price
[1]	[2]	[3]	(2-3) = [4]
3 rd	2,20,000	1/11 of ₹ 2,20,000 = ₹ 20,000	2,00,000
2 nd	4,20,000 [W.N.1]	1/11 of ₹ 4,20,000 = ₹ 38,182	3,81,818
1 st	6,01,818 [W.N.2]	1/11 of ₹ 6,01,818 = ₹ 54,711	5,47,107

Total cash price = ₹ 5,47,107 + 2,40,000 (down payment) = ₹ 7,87,107.

Working Notes:

- ₹ 2,00,000 + 2nd instalment of ₹ 2,20,000 = ₹ 4,20,000.
- ₹ 3,81,818 + 1st instalment of ₹ 2,20,000 = ₹ 6,01,818.

EXERCISES

1. Krishna Agencies started business on 1st April, 2010. During the year ended 31st March, 2011, they sold under-mentioned durables under two schemes — Cash Price Scheme (CPS) and Hire-Purchase Scheme (HPS).

Under the CPS they priced the goods at cost plus 25% and collected it on delivery.

Under the HPS the buyers were required to sign a Hire-purchase Agreement undertaking to pay for the value of the goods including finance charges in 30 instalments, the value being calculated at Cash Price plus 50%.

The following are the details available at the end of 31st March, 2011 with regard to the products :

Product	Nos. purchased	Nos. sold under CPS	Nos. sold under HPS	Cost per unit ₹	No. of instalments due during the year	No. of instalments received during the year
TV sets	90	20	60	16,000	1,080	1,000
Washing Machines	70	20	40	12,000	840	800

The following were the expenses during the year :

	₹
Rent	1,20,000
Salaries	1,44,000
Commission to Salesmen	12,000
Office Expenses	1,20,000

From the above information, you are required to prepare :

- (a) Hire-purchase Trading Account, and
(b) Trading and Profit & Loss Account.

(Hints: Total of Hire Purchase Trading Account = ₹ 39,60,000; Gross Profit ₹ 1,40,000; and Net Profit ₹ 5,42,000)

Investment Accounts

BASIC CONCEPTS

- Investment Accounting is done as per Accounting Standard-13.
- Two type of Investments :
 - Long Term Investments
 - Current Investments
- Valuation of Current investment – Lower of Cost or Fair Value/net Realizable Value
- Valuation of Long Term investment – At cost
- Reclassification :
 - From Current to Permanent → Valuation at Cost or Fair value, whichever is lower
 - From Permanent to Current → Valuation at Cost or Carrying Amount, whichever is lower
- Disposal of Investment:
 - Difference between carrying amount and disposal proceeds is transferred to Profit & Loss A/c.
 - In case of partial sale, FIFO or weighted average method to be used.

Question 1

On 1.4.2010, Mr. Krishna Murty purchased 1,000 equity shares of ₹ 100 each in TELCO Ltd. @ ₹ 120 each from a Broker, who charged 2% brokerage. He incurred 50 paise per ₹ 100 as cost of shares transfer stamps. On 31.1.2011 Bonus was declared in the ratio of 1 : 2. Before and after the record date of bonus shares, the shares were quoted at ₹ 175 per share and ₹ 90 per share respectively. On 31.3.2011 Mr. Krishna Murty sold bonus shares to a Broker, who charged 2% brokerage.

12.2 Accounting

Show the Investment Account in the books of Mr. Krishna Murty, who held the shares as Current assets and closing value of investments shall be made at Cost or Market value whichever is lower.

Answer

**In the books of Mr. Krishna Investment Account
for the year ended 31st March, 2011
(Scrip: Equity Shares of TELCO Ltd.)**

Date	Particulars	Nominal Value (₹)	Cost (₹)	Date	Particulars	Nominal Value (₹)	Cost (₹)
1.4.2010	To Bank A/c	1,00,000	1,23,000	31.3.2011	By Bank A/c	50,000	44,100
31.1.2011	To Bonus shares	50,000	—	31.3.2011	By Balance c/d	1,00,000	82,000
31.3.2011	To Profit & loss A/c	—	3,100				
		<u>1,50,000</u>	<u>1,26,100</u>			<u>1,50,000</u>	<u>1,26,100</u>

Working Notes:

- (i) Cost of equity shares purchased on 1.4.2010 = $1,000 \times ₹ 120 + 2\%$ of ₹ 1,20,000 + $\frac{1}{2}\%$ of ₹ 1,20,000 = ₹ 1,23,000
- (ii) Sale proceeds of equity shares sold on 31st March, 2011 = $500 \times ₹ 90 - 2\%$ of ₹ 45,000 = ₹ 44,100.
- (iii) Profit on sale of bonus shares on 31st March, 2011
= Sales proceeds – Average cost
Sales proceeds = ₹ 44,100
Average cost = ₹ $(1,23,000 \times 50,000) / 1,50,000$
= ₹ 41,000
Profit = ₹ 44,100 – ₹ 41,000 = ₹ 3,100.
- (iv) Valuation of equity shares on 31st March, 2011
Cost = ₹ $(1,23,000 \times 1,00,000) / 1,50,000$ = ₹ 82,000
Market Value = 1,000 shares \times ₹ 90 = ₹ 90,000
Closing balance has been valued at ₹ 82,000 being lower than the market value.

Question 2

On 1st April, 2009, XY Ltd. has 15,000 equity shares of ABC Ltd. at a book value of ₹ 15 per share (face value ₹ 10 per share). On 1st June, 2009, XY Ltd. acquired 5,000 equity shares of ABC Ltd. for ₹ 1,00,000 on cum right basis. ABC Ltd. announced a bonus and right issue.

- (1) Bonus was declared, at the rate of one equity share for every five shares held, on 1st July 2009.

- (2) Right shares are to be issued to the existing shareholders on 1st September 2009. The company will issue one right share for every 6 shares at 20% premium. No dividend was payable on these shares.
- (3) Dividend for the year ended 31.3.2009 were declared by ABC Ltd. @ 20%, which was received by XY Ltd. on 31st October 2009.

XY Ltd.

- (i) Took up half the right issue.
- (ii) Sold the remaining rights for ₹ 8 per share.
- (iii) Sold half of its share holdings on 1st January 2010 at ₹ 16.50 per share. Brokerage being 1%.

You are required to prepare Investment account of XY Ltd. for the year ended 31st March 2010 assuming the shares are being valued at average cost.

Answer

**In the books of XY Ltd.
Investment in equity shares of ABC Ltd.

Working Notes:

1. Calculation of no. of bonus shares issued

$$\text{Bonus Shares} = \frac{15,000 \text{ shares} + 5,000 \text{ shares}}{5} \times 1 = 4,000 \text{ shares}$$

12.4 Accounting

2. Calculation of right shares subscribed

$$\text{Right Shares} = \frac{15,000 \text{ shares} + 5,000 \text{ shares} + 4,000 \text{ shares}}{6} = 4,000 \text{ shares}$$

$$\text{Shares subscribed by XY Ltd.} = \frac{4,000}{2} = 2,000 \text{ shares}$$

$$\text{Value of right shares subscribed} = 2,000 \text{ shares} @ ₹ 12 \text{ per share} = ₹ 24,000$$

3. Calculation of sale of right entitlement

$$2,000 \text{ shares} \times ₹ 8 \text{ per share} = ₹ 16,000$$

(Since shares are purchased cum right basis, therefore, amount received from sale of rights will be credited to investment a/c)

4. Calculation of profit on sale of shares

Total holding	=	15,000 shares	original
		5,000 shares	purchased
		4,000 shares	bonus
		<u>2,000 shares</u>	right shares
		<u>26,000 shares</u>	

50% of the holdings were sold

i.e. 13,000 shares (26,000 x 1/2) were sold.

Cost of total holdings of 26,000 shares (on average basis)

$$= ₹ 2,25,000 + ₹ 1,00,000 + ₹ 24,000 - ₹ 16,000 - ₹ 10,000$$

$$= ₹ 3,23,000$$

Average cost of 13,000 shares would be

$$= \frac{3,23,000}{26,000} \times 13,000 = ₹ 1,61,500$$

	₹
Sale proceeds of 13,000 shares (13,000 x ₹16.50)	2,14,500
Less: 1% Brokerage	<u>(2,145)</u>
	2,12,355
Less: Cost of 13,000 shares	<u>(1,61,500)</u>
Profit on sale	<u>50,855</u>

5. Dividend received on investment held as on 1st April, 2009

= 15,000 shares x ₹ 10 x 20%

= ₹ 30,000 will be transferred to Profit and Loss A/c

Dividend received on shares purchased on 1st June, 2009

= 5,000 shares x ₹ 10 x 20% = ₹10,000 will be adjusted to Investment A/c

Note: It is presumed that no dividend is received on bonus shares as bonus shares are declared on 1st July, 2009 and dividend pertains to the year ended 31.3.2009.

6. Calculation of closing value of shares (on average basis) as on 31st March, 2010

$$13,000 \times \frac{3,23,000}{26,000} = ₹ 1,61,500.$$

Closing value of shares would be ₹ 1,61,500.

Question 3

The following information is presented by Mr. Z, relating to his holding in 9% Central Government Bonds.

$$\frac{19,92,000}{24,000} \times 9,000 = ₹ 7,47,000$$

3. Profit on sale of equity shares of Alpha Ltd.

Sales price	₹ 17,60,000
Less: Cost of bond sold = $\frac{38,25,000}{2,50,000} \times 80,000$	(₹ 12,24,000)
Profit on sale	<u>₹ 5,36,000</u>

4. Closing balance as on 31.3.2012 of equity shares of Alpha Ltd.

$$\frac{38,25,000}{2,50,000} \times 1,70,000 = ₹ 26,01,000$$

5. Calculation of right shares subscribed by Beeta Ltd.

$$\text{Right Shares} = \frac{60,000 \text{ shares}}{4} \times 1 = 15,000 \text{ shares}$$

$$\text{Shares subscribed by Mr. Brown} = 15,000 \times 40\% = 6,000 \text{ shares}$$

$$\text{Value of right shares subscribed} = 6,000 \text{ shares} @ ₹ 5 \text{ per share} = ₹ 30,000$$

6. Calculation of sale of right entitlement by Beeta Ltd.

$$\text{No. of right shares sold} = 15,000 - 6,000 = 9,000 \text{ shares}$$

$$\text{Sale value of right} = 9,000 \text{ shares} \times ₹ 2.25 \text{ per share} = ₹ 20,250$$

Note: Shares are assumed to be purchased on cum right basis; therefore, amount received from sale of rights is credited to Investment A/c.

Question 6

On 1st April, 2011, Rajat has 50,000 equity shares of P Ltd. at a book value of ₹ 15 per share (face value ₹ 10 each). He provides you the further information:

- (1) On 20th June, 2011 he purchased another 10,000 shares of P Ltd. at ₹ 16 per share.
- (2) On 1st August, 2011, P Ltd. issued one equity bonus share for every six shares held by the shareholders.
- (3) On 31st October, 2011, the directors of P Ltd. announced a right issue which entitles the holders to subscribe three shares for every seven shares at ₹ 15 per share. Shareholders can transfer their rights in full or in part.

Rajat sold 1/3rd of entitlement to Umang for a consideration of ₹ 2 per share and subscribed the rest on 5th November, 2011.

You are required to prepare Investment A/c in the books of Rajat for the year ending 31st March, 2012.

 Closing stock of equity shares has been valued at ₹ 4,10,000 i.e. cost being lower than the market value.

Insurance Claims for Loss of Stock and Loss of Profit

BASIC CONCEPTS

1. Claim for Loss of Stock

Claim for loss of stock can be studied under two heads:

a. Total Loss:

Amount of claim = Actual loss (If goods are fully insured but the amount of claim is restricted to the policy amount).

b. Partial Loss:

(i) Without Average clause:-

Claim = Lower of actual Loss or Sum Insured

(ii) With Average Clause:-

Claim = Loss of stock x sum insured / Insurable amount (Total Cost)

2. Claim for Loss of Profit

The Loss of Profit Policy normally covers the following items:

- (1) Loss of net profit
- (2) Standing charges.
- (3) Any increased cost of working

Gross Profit:

Net profit + Insured Standing charges OR

Insured Standing charges – Net Trading Loss (If any) X Insured Standing charges / All standing charges of business

Net Profit: The net trading profit (exclusive of all capital) receipts and accretion and all outlay properly (chargeable to capital) resulting from the business of the Insured at

the premises after due provision has been made for all standing and other charges including depreciation.

Insured Standing Charges: Interest on Debentures, Mortgage Loans and Bank Overdrafts, Rent, Rates and Taxes (other than taxes which form part of net profit) Salaries of Permanent Staff and Wages to Skilled Employees, Boarding and Lodging of resident Directors and/or Manager, Directors' Fees, Unspecified Standing Charges [not exceeding 5% (five per cent) of the amount recoverable in respect of Specified Standing Charges].

Rate of Gross Profit: The rate of Gross Profit earned on turnover during the financial year immediately before the date of damage.

Annual Turnover: The turnover during the twelve months immediately before the damage.

Standard Turnover: The turnover during that period in the twelve months immediately before the date of damage which corresponds with the Indemnity Period.

Indemnity Period: The period beginning with the occurrence of the damage and ending not later than twelve months.

The insurance for Loss of Profit is limited to loss of gross profit due to

- (i) Reduction in turnover, and
- (ii) Increase in the cost of working.

CLAIM FOR LOSS OF STOCK

Question 1

Significance of 'Average Clause' in a fire insurance policy.

Answer

In order to discourage under-insurance, fire insurance policies often include an average clause. The effect of these clause is that if the insured value of the subject matter concerned is less than the total cost then the average clause will apply, that is, the loss will be limited to that proportion of the loss as the insured value bears to the total cost.

The actual claim amount would therefore be determined by the following formula:

$$\text{Claim} = \frac{\text{Insured value}}{\text{Total cost}} \times \text{Loss suffered}$$

For example, if stock worth ₹ 4 lakhs is insured for ₹ 3 lakhs only and the loss incurred due to fire amounts to ₹ 1,80,000, the claim admitted by the insurer will be ₹ 1,80,000 x 3,00,000/4,00,000 = ₹ 1,35,000.

The average clause applies only when the insured value is less than the total value of the insured subject matter.

Question 2

Mr. A prepares accounts on 30th September each year, but on 31st December, 2011 fire destroyed the greater part of his stock. Following information was collected from his book:

	₹
Stock as on 1.10.2011	29,700
Purchases from 1.10.2011 to 31.12.2011	75,000
Wages from 1.10.2011 to 31.12.2011	33,000
Sales from 1.10.2011 to 31.12.2011	1,40,000

The rate of gross profit is 33.33% on cost. Stock to the value of ₹ 3,000 was salvaged. Insurance policy was for ₹ 25,000 and claim was subject to average clause.

Additional informations:

- (i) Stock at the beginning was calculated at 10% less than cost.
- (ii) A plant was installed by firm's own worker. He was paid ₹ 500, which was included in wages.
- (iii) Purchases include the purchase of the plant for ₹ 5,000

You are required to calculate the claim for the loss of stock.

Answer

Computation of claim for loss of stock:

	₹
Stock on the date of fire i.e. 31.12.2011 (Refer working note)	30,500
Less: Salvaged stock	<u>(3,000)</u>
Loss of stock	<u>27,500</u>
Amount of claim	

$$= \frac{\text{Insured value}}{\text{Total cost of stock on the date of fire}} \times \text{loss of stock}$$

$$= \frac{₹ 25,000}{₹ 30,500} \times ₹ 27,500 = ₹ 22,541$$

Question 3

On 20th October, 2009, the godown and business premises of Aman Ltd. were affected by fire. From the salvaged accounting records, the following information is available:

	₹
Stock of goods @ 10% lower than cost as on 31 st March, 09	2,16,000
Purchases less returns (1.4.09 to 20.10.09)	2,80,000
Sales less returns (1.4.09 to 20.10.09)	6,20,000

Additional information:

- (1) Sales upto 20th October, 09 includes ₹ 80,000 for which goods had not been dispatched.
- (2) Purchases upto 20th October, 09 did not include ₹ 40,000 for which purchase invoices had not been received from suppliers, though goods have been received in Godown.
- (3) Past records show the gross profit rate of 25%.
- (4) The value of goods salvaged from fire ₹ 31,000.
- (5) Aman Ltd. has insured their stock for ₹ 1,00,000.

Compute the amount of claim to be lodged to the insurance company.

Answer

**Memorandum Trading A/c

 &= \frac{1,24,000}{1,55,000} \times 1,00,000 = ₹ 80,000
 \end{aligned}$$

Working Note:

Stock as on 1st April, 2009 was valued at 10% lower than cost.

Hence, original cost of the stock as on 1st April, 2009 would be

$$= \frac{2,16,000}{90} \times 100 = ₹ 2,40,000$$

Question 4

On 19th May, 2011, the premises of Shri Garib Das were destroyed by fire, but sufficient records were saved, wherefrom the following particulars were ascertained:

	₹
Stock at cost on 1.1.2010	36,750
Stock at cost on 31.12.2010	39,800
Purchases less returns during 2010	1,99,000
Sales less returned during 2010	2,43,500

13.6 Accounting

Purchases less returns during 1.1.2011 to 19.5.2011	81,000
Sales less returns during 1.1.2011 to 19.5.2011	1,15,600

In valuing the stock for the balance Sheet as at 31st December, 2010, ₹ 1,150 had been written off on certain stock which was a poor selling line having the cost ₹ 3,450. A portion of these goods were sold in March, 2011 at a loss of ₹ 125 on original cost of ₹ 1,725. The remainder of this stock was now estimated to be worth the original cost. Subject to the above exceptions, gross profit has remained at a uniform rate throughout. The stock salvaged was ₹ 2,900.

Show the amount of the claim of stock destroyed by fire. Memorandum Trading Account to be prepared for the period from 1-1-2011 to 19-5-2011 for normal and abnormal items.

Answer

Shri Garib Das

Trading Account for the year ended on 31st December, 2010

		₹			₹	₹

Therefore, insurance claim will be for ₹ 26,125 only.

Question 5

On 30th March, 2012 fire occurred in the premises of M/s Suraj Brothers. The concern had taken an insurance policy of ₹ 60,000 which was subject to the average clause. From the books of accounts, the following particulars are available relating to the period 1st January to 30th March 2012.

- (1) Stock as per Balance Sheet at 31st December, 2011, ₹ 95,600.
- (2) Purchases (including purchase of machinery costing ₹ 30,000) ₹ 1,70,000
- (3) Wages (including wages ₹ 3,000 for installation of machinery) ₹ 50,000.
- (4) Sales (including goods sold on approval basis amounting to ₹ 49,500) ₹ 2,75,000. No approval has been received in respect of 2/3rd of the goods sold on approval.
- (5) The average rate of gross profit is 20% of sales.
- (6) The value of the salvaged goods was ₹ 12,300.

You are required to compute the amount of the claim to be lodged to the insurance company.

Answer

Computation of claim for loss of stock

	₹
Stock on the date of fire i.e. on 30 th March, 2012 (W.N.1)	62,600
Less: Value of salvaged stock	<u>(12,300)</u>
Loss of stock	<u>50,300</u>
Amount of claim = $\frac{\text{Insured value}}{\text{Total cost of stock on the date of fire}} \times \text{Loss of stock}$	48,211
= $\left(\frac{60,000}{62,600} \times 50,300 \right)$	(approx.)

A claim of ₹ 48,211 (approx.) should be lodged by M/s Suraj Brothers to the insurance company.

2. Calculation of goods with customers

Since no approval for sale has been received for the goods of ₹ 33,000 (i.e. 2/3 of ₹ 49,500) hence, these should be valued at cost i.e. ₹ 33,000 – 20% of ₹ 33,000 = ₹ 26,400.

3. Calculation of actual sales

Total sales – Sale of goods on approval = ₹ 2,75,000 – ₹ 33,000 = ₹ 2,42,000.

Question 6

A fire occurred in the premises of M/s. Fireproof Co. on 31st August, 2011. From the following particulars relating to the period from 1st April, 2011 to 31st August, 2011, you are requested to ascertain the amount of claim to be filed with the insurance company for the loss of stock. The concern had taken an insurance policy for ₹ 60,000 which is subject to an average clause.

		₹
(i)	Stock as per Balance Sheet at 31-03-2011	99,000

(vi)	Cost of goods sent to consignee on 16 th August, 2011, lying unsold with them	16,500
(vii)	Cost of goods distributed as free samples	1,500

While valuing the stock at 31st March, 2011, ₹ 1,000 were written off in respect of a slow moving item. The cost of which was ₹ 5,000. A portion of these goods were sold at a loss of ₹ 500 on the original cost of ₹ 2,500. The remainder of the stock is now estimated to be worth the original cost. The value of goods salvaged was estimated at ₹ 20,000. The average rate of gross profit was 20% throughout.

CLAIM FOR LOSS OF PROFIT

Question 9

X Ltd. has insured itself under a loss of profit policy for ₹ 3,63,000. The indemnity period under the policy is six months. On 1st September, 2010 a fire occurred in the factory of X Ltd. and the normal business was affected upto 1st March, 2011.

The following information is compiled for the year ended on 31st March, 2010:

	₹
Sales	20,00,000
Insured standing charges	2,40,000
Uninsured standing charges	20,000
Net profit	1,20,000

Following further details of turnover are furnished.

- Turnover during the period of 12 months ending on the date of fire was ₹ 22,00,000.
- Turnover during the period of interruption was ₹ 2,25,000.
- Actual turnover during the period from 1.9.2009 to 1.3.2010 during the preceding year corresponding to the indemnity period was ₹ 7,50,000.

X Ltd. spent an amount of ₹ 40,000 as additional cost of working during the indemnity period. On account of this additional expenditure:

- There was a saving of ₹ 15,000 in insured standing charges during the period of indemnity.
- Reduced turnover avoided was ₹ 1,00,000. i.e. but for this expenditure, the turnover after the date of fire would have been only ₹ 1,25,000.

A special clause in the policy stipulates that owing to the reasons acceptable to the insurer under the special circumstances the following increases are to be made:

- Increase of turnover standard and actual by 10%.
- Increase in rate of gross profit by 2% from previous year's level.

X Ltd. asks you to compute the claim for loss of profit. All calculations should be to the nearest rupee.

Answer

Computation of loss of profit for insurance claim

(1) Rate of gross profit

$$\frac{\text{Net profit for the last financial year} + \text{Insured standing charges}}{\text{Turnover for the last financial year}} \times 100$$

$$= \frac{\text{₹}1,20,000 + \text{₹} 2,40,000}{\text{₹} 20,00,000} \times 100 \qquad 18\%$$

Add: Adjustment for increase in gross profit rate= 2%
20%

(2) Calculation of short sales:

	₹
Turnover from 1.9.2009 to 1.3.2010	7,50,000
Add: Adjustment for increase in turnover	<u>75,000</u>
Adjusted turnover	8,25,000
Less: Actual turnover from 1.9.2010 to 1.3.2011	<u>2,25,000</u>
Short sales	<u>6,00,000</u>

(3) Additional expenses:

	₹
(i) Actual expenses	40,000
(ii) Gross profit on sale generated by additional expenses [(20/100) x ₹ 1,00,000]	20,000

(iii) Additional expenses × $\frac{\text{Gross profit on annual adjusted turnover}}{\text{Gross profit on annual adjusted turnover} + \text{Uninsured standing charges}}$

$$= \text{₹}40,000 \times \frac{20\% \text{ on } \text{₹} 24,20,000^*}{(20\% \text{ on } \text{₹} 24,20,000) + \text{₹} 20,000}$$

$$= \text{₹} 40,000 \times \frac{\text{₹} 4,84,000}{\text{₹} 5,04,000} = \text{₹} 38,413$$

Least of the above three figures i.e. ₹ 20,000 is allowable.

* ₹ 22,00,000 x (110/100)

13.14 Accounting

(4) Amount of claim before application of average clause

	₹
Gross profit on short sales (20% on ₹ 6,00,000)	1,20,000
Add: Allowable additional expenses	<u>20,000</u>
	1,40,000
Less: Saving in insured standing charges	<u>(15,000)</u>
	<u>1,25,000</u>

(5) Application of average clause

	₹
Annual turnover i.e. turnover from 1.9.2009 to 31.8 2010	22,00,000
Add: Adjustment for increase in turnover (10% of ₹ 22,00,000)	<u>2,20,000</u>
	<u>24,20,000</u>
Gross profit on annual adjusted turnover (20% on ₹ 24,20,000)	4,84,000
Loss of profit policy value	3,63,000

Since the policy-value is less than gross profit on adjusted annual turnover, the average clause is applicable.

$$\begin{aligned}\text{Hence the amount of claim} &= ₹ 1,25,000 \times (\text{₹ } 3,63,000 / \text{₹ } 4,84,000) \\ &= ₹ 93,750\end{aligned}$$

Question 10

CCL wants to take up a loss of profit policy. Turnover during the current year is expected to increase by 20%. The company will avail overdraft facilities from its bank @ 15% interest to boost up the sales. The average daily overdraft balance will be around ₹ 3 lakhs. All other fixed expenses will remain same. The following further details are also available from the previous year's account.

	₹
Total variable expenses	24,00,000
Fixed expenses:	
Salaries	3,30,000
Rent, Rates, and Taxes	30,000

Question 11

On account of a fire on 15th June, 2011 in the business house of a company, the working remained disturbed upto 15th December 2011 as a result of which it was not possible to affect any sales. The company had taken out an insurance policy with an average clause against consequential losses for ₹ 1,40,000 and a period of 7 months has been agreed upon as indemnity period. An increased of 25% was marked in the current year's sales as compared to the last year. The company incurred an additional expenditure of ₹ 12,000 to make sales possible and made a saving of ₹ 2,000 in the insured standing charges.

13.16 Accounting

	₹
Actual sales from 15 th June, 2011 to 15 th Dec, 2011	70,000
Sales from 15 th June 2010 to 15 th Dec 2010	2,40,000
Net profit for last financial year	80,000
Insured standing charges for the last financial year	70,000
Total standing charges for the last financial year	1,20,000
Turnover for the last financial year	6,00,000
Turnover for one year : 16 th June 2010 to 15 th June 2011	5,60,000

Answer

(1) Calculation of short sales:

	₹
Sales for the period 15.6.2010 to 15.12.2010	2,40,000
Add: 25% increase in sales	<u>60,000</u>
Estimated sales in current year	3,00,000
Less: Actual sales from 15.6.2011 to 15.12.2011	<u>(70,000)</u>
Short sales	<u>2,30,000</u>

(2) Calculation of gross profit:

$$\begin{aligned} \text{Gross profit} &= \frac{\text{Net profit} + \text{Insured standing charges}}{\text{Turnover}} \times 100 \\ &= \frac{\text{₹ } 80,000 + \text{₹ } 70,000}{\text{₹ } 6,00,000} \times 100 \\ &= \frac{\text{₹ } 1,50,000}{\text{₹ } 6,00,000} \times 100 \\ &= 25\% \end{aligned}$$

(3) Calculation of loss of profit:

$$\text{₹ } 2,30,000 \times 25\% = \text{₹ } 57,500$$

(4) Calculation of claim for increased cost of working:

Least of the following:

- (i) Actual expense = ₹ 12,000
- (ii) Expenditure x (Net profit + Insured standing charges) / (Net profit + Total standing charges)

$$= ₹ 12,000 \times \frac{₹ 80,000 + ₹ 70,000}{₹ 80,000 + ₹ 1,20,000} = ₹ 9,000$$

- (iii) Gross profit on sales generated due to additional expenses
 = ₹ 70,000 x 25% = ₹ 17,500
 ₹ 9,000 being the least, shall be the increased cost of working.

(5) Calculation of total loss of profit:

	₹
Loss of profit	57,500
<i>Add:</i> Increased cost of working	<u>9,000</u>
	66,500
<i>Less:</i> Saving in standing charges	<u>(2,000)</u>
	<u>64,500</u>

(6) Calculation of insurable amount = Adjusted sales x G. P. rate:

	₹
Turnover from 16.6.2010 to 15.6.2011	5,60,000
<i>Add:</i> 25% increase	<u>1,40,000</u>
Adjusted sales	<u>7,00,000</u>
Insurable amount = ₹ 7,00,000 x 25% =	₹ 1,75,000

(7) Total claim for consequential loss of profit:

$$\text{Total claim} = \frac{\text{Insured amount}}{\text{Insurable amount}} \times \text{Total loss of profit}$$

$$\text{Total claim} = \frac{₹ 1,40,000}{₹ 1,75,000} \times ₹ 64,500 = ₹ 51,600$$

Alternatively claim for increased cost of working can also be calculated applying the following method (first three calculations will be the same as in the earlier alternative).

(8) Calculation of claim for increased cost of working:

Least of the following:

(i) Actual expense = ₹ 12,000

(ii) Expenditure x $\frac{\text{Gross profit on adjusted turnover}}{\text{Gross profit as above} + \text{Uninsured standing charges}}$

13.18 Accounting

$$₹ 12,000 \times \frac{(25/100) \times ₹ 7,00,000}{[(25/100) \times ₹ 7,00,000] + ₹ 50,000} = ₹ 9,333 \text{ approx.}$$

Where,

Adjusted turnover	₹
Turnover from 16.06.2010 to 15.06.2011	5,60,000
Add: 25% increase	<u>1,40,000</u>
	<u>7,00,000</u>

(iii) Gross profit on sales generated due to additional expenditure = 25% x ₹ 70,000
= ₹ 17,500.

₹ 9,333 being the least, shall be the increased cost of working.

(9) Calculation of total loss of profit

	₹
Loss of profit	57,500
Add: Increased cost of working	<u>9,333</u>
	66,833
Less: Saving in insured standing charges	<u>(2,000)</u>
	<u>64,833</u>

(10) Calculation of insurable amount:

$$\begin{aligned} & \text{Adjusted turnover} \times \text{G.P. rate} \\ & = ₹ 7,00,000 \times 25\% = ₹ 1,75,000 \end{aligned}$$

(11) Total claim for consequential loss of profit:

$$\begin{aligned} & = \frac{\text{Insured amount}}{\text{Insurable amount}} \times \text{Total loss of profit} \\ & = \frac{₹ 1,40,000}{₹ 1,75,000} \times ₹ 64,833 = ₹ 51,866.40 \end{aligned}$$

Question 12

Ramda & Sons had taken out policies (without Average Clause) both against loss of stock and loss of profit, for ₹ 2,10,000 and ₹ 3,20,000 respectively. A fire occurred on 1st July, 2011 and as a result of which sales were seriously affected for a period of 3 months.

	Claim	
	Loss of Gross Profit	₹ 71,392

Add: Additional expenses ₹ 11,040
₹ 82,432

Insurance claim for loss of profit will be of ₹ 82,432 only.

Working Note:

Rate of Gross Profit in 2010-11

$$\frac{\text{Gross Profit}}{\text{Sales}} \times 100$$

$$\frac{3,00,000}{12,00,000} \times 100 = 25\%$$

In 2011-12, Gross Profit is expected to increase by 5% as a result of decline in material cost, hence the rate of Gross Profit for loss of stock is taken at 30%.

Issues in Partnership Accounts

BASIC CONCEPTS

- Partnership is defined as the relationship between persons who have agreed to share the profit or loss of a business carried on by all or any of them acting for all.
- Two methods of accounting
 - Fixed capital method
 - Fluctuating capital method.
- Goodwill is the value of reputation of a firm in respect of profits expected in future over and above the normal rate of profits.
- Necessity for valuation of goodwill in a firm arises in the following cases:
 - When the profit sharing ratio amongst the partners is changed;
 - When a new partner is admitted;
 - When a partner retires or dies, and
 - When the business is dissolved or sold.
- Methods for valuation of goodwill:

(1) Average profit basis :

$$\text{Average Profit} = \frac{\text{Total Profit}}{\text{Number of years}}$$

$$\text{Goodwill} = \text{Average Profit} \times \text{No. of Years' purchased}$$

The profits taken into consideration are adjusted with abnormal losses, abnormal gains, errors, return on non-trade investments and errors.

(2) Super profit basis :

Calculate Capital Employed

Assets

14.2 Accounting

Less: Liability

Capital Employed

- Find the normal Rate of Return (NRR)
- Find Normal Profit = Capital Employed x Normal rate of Return
- Find Average Actual Profit
- Find Super Profit = Average Actual Profit - Normal Profit
- Find Goodwill = Super Profit x Number of Years Purchased

(3) Annuity basis :

Goodwill = Super Profit X Annuity Number

(4) Capitalization basis :

$$\text{Goodwill} = \frac{\text{Super Profit}}{\text{Normal Rate of Return}}$$

Question 1

A, B and C were partners of a firm sharing profits and losses in the ratio of 3 : 4 : 3. The Balance Sheet of the firm, as at 31st March, 2010 was as under:

Liabilities		₹	Assets		₹
Capital Accounts:			Fixed Assets		1,00,000

The firm had taken a Joint Life Policy for ₹ 1,00,000; the premium periodically paid was charged to Profit and Loss Account. Partner C died on 30th September, 2010. It was agreed between the surviving partners and the legal representatives of C that:

- (i) Goodwill of the firm will be taken at ₹ 60,000.
- (ii) Fixed Assets will be written down by ₹ 20,000.
- (iii) In lieu of profits, C should be paid at the rate of 25% per annum on his capital as on 31st March, 2010.

Policy money was received and the legal heirs were paid off. The profits for the year ended 31st March, 2011, after charging depreciation of ₹ 10,000 (depreciation upto 30th September was agreed to be ₹ 6,000) were ₹ 48,000.

Partners' Drawings Accounts showed balances as under :

A ₹ 18,000 (drawn evenly over the year)

B ₹ 24,000 (drawn evenly over the year)

C (up-to-date of death) ₹ 20,000

On the basis of the above figures, please indicate the entitlement of the legal heirs of C, assuming that they had not been paid anything other than the share in the Joint Life Policy.

Answer

Computation of entitlement of legal heirs of C

(1) Profits for the half year ended 31st March, 2011

	₹
Profits for the year ended 31 st March, 2011 (after depreciation)	48,000

Less : Depreciation for the first half	<u>(6,000)</u>
Profits for the first half year (after depreciation)	<u>23,000</u>
Profits for the second half (i.e., 1 st October, 2010 to 31 st March, 2011)	29,000
Less : Depreciation for the second half	<u>(4,000)</u>
Profits for the second half year (after depreciation)	<u>25,000</u>

(3) Application of Section 37 of the Partnership Act

Legal heirs of C have not been paid anything other than the share in joint life policy. The amount due to the deceased partner carries interest at the mutually agreed upon rate. In the absence of any agreement, the representatives of the deceased partner can receive at their option interest at the rate of 6% per annum or the share of profit earned for the amount due to the deceased partner.

Thus, the representatives of C can opt for

Either,

(i) Interest on ₹ 52,000 for 6 months @ 6% p.a. = ₹ 1,560

Or

(ii) Profit earned out of unsettled capital (in the second half year ended 31st March, 2011)

$$\text{₹ } 25,000 \times \frac{52,000}{57,000 + 76,000 + 52,000} = \text{₹ } 7,027 \text{ (approx.)}$$

In the above case, it would be rational to assume that the legal heirs would opt for ₹ 7,027.

(4) Amount due to legal heirs of C	₹
Balance in C's Executor's account	52,000
Amount of profit earned out of unsettled capital [calculated in (3)]	<u>7,027</u>
Amount due	<u>59,027</u>

Question 2

A, B and C were partners, sharing Profits and Losses in the ratio of 5 : 3 : 2 respectively. On 31st March, 2011 their Balance Sheet stood as follows :

Liabilities	Rs.	Assets	Rs.
A's capital	7,79,000	Plant and Machinery	13,62,000
B's capital	7,07,800	Furniture and Fittings	2,36,000
C's capital	6,86,200	Stock	7,02,000
Creditors	4,91,000	Debtors	1,91,000
		Cash at Bank	<u>1,73,000</u>
	<u>26,64,000</u>		<u>26,64,000</u>

On 31st July, 2011 A died. According to partnership deed, on the death of a partner, the capital account of the deceased partner was to be credited with:

- (i) his share of profit for the relevant part of the year of death calculated on the basis of profit earned during the immediately preceding accounting year, and
- (ii) his share of goodwill

Goodwill was to be valued at two years' purchase of the average profits of immediately preceding three accounting years. The profits, as per books of account were as follows:

	₹
For accounting year ended 31 st March, 2009	3,29,000
For accounting year ended 31 st March, 2010	3,46,000
For accounting year ended 31 st March, 2011	3,78,000

However, while going through the books of account on A's death, it came to light that ₹ 30,000 worth of wages were spent on installation of a new machinery, but the same was not capitalized; the machinery was put into operation on 1st October, 2010. Depreciation was provided on the machinery @ 20% per annum.

On 1st October, 2011, A's son D was admitted into partnership with immediate effect on the following terms:

- (a) D would get one-fourth share in the profit of the firm, while the relative profit sharing ratio between B and C would remain unchanged.
- (b) The final balance of A's capital account would be credited to D's capital account
- (c) An adjustment would be made in the Capital Accounts for D's share of goodwill. The basis of valuation of firm's goodwill would be the same as was adopted at the time of the death of his father.

On 31st March, 2012, the Profit and Loss Account of the firm showed that the firm had earned a profit of ₹ 4,16,000 for the year. The respective drawings accounts showed that while B and C had withdrawn ₹ 60,000 each during the year, D's drawings totalled ₹ 30,000. The Drawings Accounts are closed at the end of the year by transfer to respective capital accounts.

You are required to:

- (i) Prepare a statement showing distribution of profits for the accounting year ended 31st March, 2012; and
- (ii) Pass journal entries for all the transactions relating to death of the partner. D's admission into partnership, and at the end of the year relating to transfer of Drawings Accounts and distribution of profit for the year.

Working Notes:

(1) Computation of A's share in profit for the period 1.4.2011 – 31.7.2011

A's share in profit for the period of 1st April, 2011 to 31st July, 2011 is to be calculated on the basis of profit earned during the immediately previous accounting year i.e. year ended on 31st March, 2011

	₹
Profit for the year ended 31 st March, 2011	3,78,000
Add : Capital expenditure of wages spent on installation of new machinery, treated as revenue expenditure	<u>30,000</u>
	4,08,000
Less : Depreciation on ₹ 30,000 (being the value of machinery @ 20% p.a. for 6 months)	<u>(3,000)</u>
Correct profit for the year ended 31 st March, 2011	<u>4,05,000</u>
Profit for 4 months on the basis of last year's profit = ₹ 4,05,000 × $\frac{4}{12}$ = 1,35,000	
A's share in profit = 1,35,000 × $\frac{5}{10}$ = 67,500	

(2) Valuation of Goodwill

	₹
Profit for the year ended 31 st March, 2009	3,29,000
Profit for the year ended 31 st March, 2010	3,46,000
Profit for the year ended 31 st March, 2011	4,05,000
Total Profit	<u>10,80,000</u>

$$\text{Average Profit} = ₹ \frac{10,80,000}{3} = ₹ 3,60,000$$

$$\text{Goodwill (two years' purchase)} = ₹ 3,60,000 \times 2 = ₹ 7,20,000$$

(3) Distribution of profit for 4 months ended 31st July, 2011

	₹
Net Profit (₹ 4,16,000 × $\frac{4}{12}$)	1,38,667
A's share (W. N. 1)	67,500
B's share (₹ 71,167 × $\frac{3}{5}$)	42,700

(5) Application of section 37 of the Partnership Act

Either

(i) Interest of ₹ 12,20,000 × $\frac{6}{100} \times \frac{2}{12} = ₹ 12,200$

Or

(ii) Profit earned out of unsettled capital

$$₹ 4,16,000 \times \frac{2}{12} \times \frac{₹ 12,20,000}{₹ (12,20,000 + 9,54,600 + 8,44,067)} = ₹ 28,021 \text{ (approx.)}$$

In the absence of specific agreement amongst partners on the above subject matter, the representatives of the deceased partner can receive at their option, interest at the rate of 6% p.a. or share of profit earned for the amount due to the deceased partner.

In the above case, it would be rational to assume that A's representatives would opt for ₹ 28,021.

Notes:

1. It is assumed that profit was earned uniformly throughout the year. Although notional profit was calculated for the first four months, it is to be transferred from the current year's profit (as calculated in working note 3). The question requires that A's share of profit for this period is to be calculated on the basis of profit earned during year ended 31st March, 2011. The balance amount after calculating his share has been credited to B and C in ratio 3 : 2.
2. It is assumed that drawings were made evenly throughout the year. However, single entry has been given at year end in the main solution relating to transfer of drawings and distribution of profit but the Partners' capital accounts shown in the working notes include the entries of drawings and distribution of profit of respective dates within the year.

Less : Drawings	(76,000) 2,19,400		
	<u>8,86,800</u>		<u>8,86,800</u>

You have examined the foregoing Draft of the Balance Sheet and have ascertained that the following adjustments are required to be carried out :

- (i) Land and Buildings are shown at cost less ₹ 60,000 being the proceeds of the sale during the year of premises costing ₹ 70,000.
- (ii) Machinery having a net book value of ₹ 4,300 had been scrapped during the year. The original cost was ₹ 12,300.
- (iii) ₹ 2,000 paid for the License fee for the year ending 30th September, 2011 had been written off.
- (iv) Debts amounting to ₹ 10,420 were considered to be bad and further debts amounting to ₹ 5,400 were considered doubtful and required 100% provision. Provision for doubtful debts had previously been made for ₹ 10,000.
- (v) An item in the Inventory was valued at ₹ 37,400, but had a realisable value of ₹ 26,000 only. Scrap Material having a value of ₹ 6,600 had been omitted from the stock valuation.
- (vi) The cashier had misappropriated ₹ 700.

(vii) The cash-book for the year ending 31st March, 2011 included payments amounting to ₹ 6,924, the cheques having been made out, but not dispatched to suppliers until April 2011.

(viii) Interest is to be allowed on the Partners' opening Capital Account balances less drawings during the year at 9%.

You are required to prepare:

(a) Profit & Loss Adjustment Account for the year.

(b) Capital Accounts of the Partners.

Jatin retired on 31st December, 2011. Manish and Paresh continued in partnership sharing Profits/ Losses in the ratio of Manish 60 percent and Paresh 40 percent. 50 percent of Jatin's Loan was repaid on 1.1.2012 and it was agreed that of the amount then remaining due to him a sum of ₹ 80,000 should remain as loan to partnership and the balance to be carried forward as ordinary trading liability. The following adjustments were agreed to be made to the above mentioned Balance Sheet:

- (i) ₹ 10,000 should be written off from the premises.
- (ii) Plant and Machinery was revalued at ₹ 58,000.
- (iii) Provision for doubtful debts to be increased by ₹ 1,200
- (iv) ₹ 5,000 due to creditors for expenses had been omitted from the books of account.
- (v) ₹ 4,000 to be written off on stocks.
- (vi) Provide ₹ 1,200 for professional charges in connection with revaluation.

As per the deed of partnership, in the event of the retirement of a partner, goodwill was to be valued at an amount equal to one year's purchase of the average profits of the preceding three years on the date of retirement. Before determining the said average profits a notional amount of ₹ 80,000 should be charged for remuneration to partners. The necessary profits before charging such remuneration were:

Year ending 30.12.2009	₹ 1,44,000
Year ending 31.12.2010	₹ 1,68,000
Year ending 31.12.2011	₹ 1,88,200 (As per draft accounts)

It was agreed that, for the purpose of valuing goodwill, the amount of profit for the year 2011 be recomputed after charging the loss on revaluation in respect of premises and stock, the unprovided expenses (except professional expenses) and increase in the provision for doubtful debts. The continuing partners decided to eliminate goodwill account from their books.

You are required to prepare:

- (i) Revaluation Account:
- (ii) Capital Accounts (merging current accounts therein):
- (iii) Jatin's Accounts showing balance due to him; and
- (iv) Balance Sheet of Manish and Paresh as at 1st January, 2012.

- (b) Land and Building to be valued at ₹ 6,00,000.*
- (c) Stock to be valued at 95% of book value.*
- (d) Provision for doubtful debts @ 10% to be provided on debtors.*
- (e) General Reserve to be apportioned amongst Ram, Rahim and Robert.*
- (f) The firm's goodwill to be valued at 2 years purchase of the average profits of the last 3 years. The relevant figures are:*

<i>Year ended 31.3.2008</i>	<i>–</i>	<i>Profit ₹ 50,000</i>
<i>Year ended 31.3.2009</i>	<i>–</i>	<i>Profit ₹ 60,000</i>
<i>Year ended 31.3.2010</i>	<i>–</i>	<i>Profit ₹ 55,000</i>
- (g) Out of the amount due to Robert ₹ 2,00,000 would be retained as loan by the firm and the balance will be settled immediately.*
- (h) Richard's capital should be equal to 50% of the combined capital of Ram and Rahim.*

Prepare:

- (i) Capital accounts of the partners; and*

Question 6

The following was the Balance Sheet of 'A' and 'B', who were sharing profits and losses in the ratio of 2:1 on 31.12.2011:

Liabilities	₹	Assets	₹
Capital Accounts		Plant and machinery	12,00,000
A	10,00,000	Building	9,00,000

	<u>29,00,000</u>		<u>29,00,000</u>

They agreed to admit 'C' into the partnership on the following terms:

- (i) The goodwill of the firm was fixed at ₹ 1,05,000.
- (ii) That the value of stock and plant and machinery were to be reduced by 10%.
- (iii) That a provision of 5% was to be created for doubtful debts.
- (iv) That the building account was to be appreciated by 20%.
- (v) There was an unrecorded liability of ₹ 10,000.
- (vi) Investments worth ₹ 20,000 (Not mentioned in the Balance Sheet) were taken into account.
- (vii) That the value of reserve fund, the values of liabilities and the values of assets other than cash are not to be altered.
- (viii) 'C' was to be given one-fourth share in the profit and was to bring capital equal to his share of profit after all adjustments.

Sundry Creditors	4,00,000		
Bills Payable	<u>1,00,000</u>		
	<u>37,40,000</u>		<u>37,40,000</u>

Working Notes:

1. Calculation of new profit and loss sharing ratio

C will get 1/4 th share in the new profit sharing ratio.

Therefore, remaining share will be $1 - 1/4 = 3/4$

Share of A will be $3/4 \times 2/3 = 2/4$ i.e. $1/2$

Share of B will be $3/4 \times 1/3 = 1/4$

New ratio will be

A : B : C

$1/2 : 1/4 : 1/4$

$2 : 1 : 1$

2. Calculation of closing capital of C

Closing capitals of A & B after all adjustments are:

$$A = ₹11,70,000$$

$$B = ₹ 5,85,000$$

Since B's capital is less than A's capital, therefore B's capital is taken as base.

Hence, C's closing capital should be Rs.5,85,000 i.e. at par with B (as per new profit and loss sharing ratio)

3. Adjustment entry for goodwill*

<i>Partners</i>	<i>Goodwill as per old ratio</i>	<i>Goodwill as per new ratio</i>	<i>Effect</i>	
A	70,000	52,500	+ 17,500	-
B	35,000	26,250	+ 8,750	-
C	<u>-</u>	<u>26,250</u>	<u>-</u>	<u>-26,250</u>
	<u>1,05,000</u>	<u>1,05,000</u>	<u>26,250</u>	<u>26,250</u>

Adjustment entry will be:

C's Capital A/c	Dr.	26,250
To A's Capital A/c		17,500
To B's Capital A/c		8,750

Question 7

P, Q, R are three doctors who are running a Polyclinic. Their capital on 31st March, 2009 was ₹ 1,00,000 each. They agreed to admit X, Y and Z as partners w.e.f. 1st April 2009. The terms for sharing profits & losses were as follows:

- (a) 70% of the visiting fee is to go to the specialist concerned.
- (b) 50% of the chamber fee will be payable to the individual specialist.
- (c) 40% of operation fee and fee for pathological reports, X-rays and ECG will accrue in favour of the doctor concerned.
- (d) Balance of profit or loss is shared equally.
- (e) All the partners are entitled for 6% interest on capital employed.

They further agreed that:

* As per para 36 of AS 10, 'Accounting for fixed Assets,' goodwill should be recorded in the books only when some consideration in money or money's worth has been paid for it. Therefore, the goodwill raised at the time of admission of C is to be written off in new ratio among all partners including new partner, C.

14.24 Accounting

- (i) X, Y and Z brought in ₹ 20,000 each as goodwill. Goodwill is shared by the existing partners equally.
- (ii) X, Y and Z brought in ₹ 50,000 each as capital. Each of the original partners also contributed ₹ 50,000 by way of capital.

Question 8

The Balance Sheet of Amitabh, Abhishek and Amrish as at 31.12.2008 stood as follows:

Liabilities	Amount ₹	Assets	Amount ₹
Capital:		Land & Buildings	74,000
Amitabh	60,000	Investments	10,000
Abhishek	40,000	Goodwill	37,800
Amrish	<u>40,000</u>	Life Policy (at surrender value):	
	1,40,000	Amitabh	2,500
Creditors	25,800	Abhishek	2,500
General Reserve	8,000	Amrish	1,000
Investment		Stock	20,000
Fluctuation Reserve	2,400	Debtors	20,000
		Less: Provision for doubtful debts	<u>(1,600)</u>
		Cash & bank balance	<u>10,000</u>
	<u>1,76,200</u>		<u>1,76,200</u>

Amrish died on 31 March, 2009, due to this reason the following adjustments were agreed upon:

- (i) Land and Buildings be appreciated by 50%.
- (ii) Investment be valued at 6% less than the cost.
- (iii) All debtors (except 20% which are considered as doubtful) were good.
- (iv) Stock to be reduced to 94%.
- (v) Goodwill to be valued at 1 year's purchase of the average profits of the past five years.
- (vi) Amrish's share of profit to the date of death be calculated on the basis of average profits of the three completed years immediately preceeding the year of death.

The profits of the last five years are as follows:

Year	Rs.
2004	23,000
2005	28,000
2006	18,000
2007	16,000
2008	<u>20,000</u>
	<u>1,05,000</u>

The life policies have been shown at their surrender values representing 10% of the sum assured in each case. The annual premium of Rs. 1,000 is payable every year on 1st August.

Give the necessary Journal Entries in the books of account and prepare the Balance Sheet of the reconstituted firm.

Working Notes:

(i) Calculation of Amrish's Share of Profit

Total profit for last three years ₹ 18,000 + ₹ 16,000 + ₹ 20,000 = ₹ 54,000

Average profit 54,000/3 = ₹ 18,000

Profit for 3 months = 18,000 x 3/12 = ₹ 4,500

* Rounded off.

14.32 Accounting

$$\text{Amrish's share of Profit} = 4,500 \times \frac{1}{3} = ₹ 1,500$$

(ii) Calculation of Goodwill

$$\text{Total profits for last five years} = ₹ 1,05,000$$

$$\text{Average profit } 1,05,000/5 = ₹ 21,000$$

$$\text{Goodwill at one year's purchase} = ₹ 21,000 \times 1 = ₹ 21,000$$

Question 9

A, B and C run a business sharing profits and losses in proportion of 2:2:1. On 1st January, 2008 their respective capitals were Rs.96,000, Rs.90,000 and Rs.84,000. On 30th June, 2008 the following was the position:

	₹
Creditors	30,000
Furniture	9,000
Book debts	1,80,000
Stock	90,000
Cash in hand and at bank	36,000

The drawings of the partners respectively were Rs.12,000, Rs.9,000 and Rs.6,000 during the half-year. Each partner is entitled to an interest at the rate of 5% p.a. on capital. Interest on drawings was calculated as Rs.600 for A, Rs.450 in case of B and Rs.300 in case of C.

You are required to prepare:

- A statement of affair as on 30th June, 2008.
- Calculate the profits for the half-year ending on 30th June, 2008 and allocate the same amongst the partners. Also calculate capital of each partner as on 30th June, 2008.

Answer

(i) Statement of Affairs of A, B & C

Question 10

'A' and 'B' are partners sharing Profits and Losses in the ratio of 3:1. Their capitals were ₹ 3,00,000 and ₹ 2,00,000 respectively. As from 1st April, 2009, it was agreed to change the profit sharing ratio to 3:2. According to the partnership deed, goodwill should be valued at two years' purchase of the average of three years' profits. The profits of the previous three years ending 31st March were:

2007-₹.1,50,000; 2008-₹2,00,000 and 2009-₹2,50,000. Pass the necessary journal entry to give effect to the above arrangement in the capital accounts of the partners.

Answer

Journal Entry

		₹	₹
B's Capital A/c	Dr.	60,000	
To A's Capital A/c			60,000
(Being the adjusting entry for goodwill, passed due to change in profit and loss sharing ratio, through capital accounts of partners)			

Working Notes:

1. Calculation of Goodwill

	₹
Profit for the year 2007	1,50,000
Profit for the year 2008	2,00,000
Profit for the year 2009	2,50,000
Total profit of 3 years	6,00,000

$$\text{Average Profit} = \frac{6,00,000}{3} = ₹ 2,00,000$$

$$\text{Goodwill} = ₹ 2,00,000 \times 2 = ₹ 4,00,000$$

2. Effect of change in Profit Sharing Ratio

Old ratio of A and B = 3 : 1

New ratio of A and B = 3 : 2

Gaining Ratio = New Ratio – Old Ratio

$$\text{For A} = \frac{3}{5} - \frac{3}{4} = \frac{12-15}{20} = \frac{3}{20} \text{ i.e. A loses by } \frac{3}{20}$$

$$\text{For B} = \frac{2}{5} - \frac{1}{4} = \frac{8-5}{20} = \frac{3}{20} \text{ i.e. B gains by } \frac{3}{20}$$

3. Amount of compensation payable by B to A

$$\frac{3}{20} \times ₹ 4,00,000 = ₹ 60,000$$

Question 11

Good, Better and Best are in partnership sharing profits and losses in the ratio 3:2:4. Their capital account balances as on 31st March, 2012 are as follows:

	₹
Good	1,70,000 (Cr)
Better	1,10,000 (Cr)
Best	1,22,000 (Cr)

Following further information provided:

- (1) ₹ 22,240 is to be transferred to General Reserve.
- (2) Good, Better and Best are paid monthly salary in cash amounting ₹ 2,400, ₹ 1,600 and ₹ 1,800 respectively.
- (3) Partners are allowed interest on their closing capital balance @ 6% p.a. and are charged interest on drawings @ 8% p.a.
- (4) Good and Best are entitled to commission @ 8% and 10% respectively of the net profit before making any appropriation.
- (5) Better is entitled to commission @ 15% of the net profit before charging Interest on Drawings but after making all other appropriations.
- (6) During the year Good withdraw ₹ 2,000 at the beginning of every month, Better ₹ 1,750 at the end of every month and Best ₹ 1,250 at the middle of every month.
- (7) Firm's Accountant is entitled to a salary of ₹ 2,000 per month and a commission of 12% of net profit after charging such commission.

The Net Profit of the firm for the year ended on 31st March, 2012 before providing for any of the above adjustments was ₹ 2,76,000.

You are required to prepare Profit and Loss Appropriation Account for the year ended on 31st March, 2012

Answer

Profit and Loss Appropriation Account

Particulars	₹	Particulars	₹
To General reserve	22,240	By Net Profit (See W.N.1)	2,25,000

Good	20,223		
Better	13,482		
Best	<u>26,964</u>	<u>60,669</u>	
		<u>2,27,410</u>	<u>2,27,410</u>

Working Notes:

1. Profit and Loss Account

Particulars	₹	Particulars	₹
To Salary (Firm's Accountant)	24,000	By Profit	2,76,000
To Commission (Firm's Accountant) (W.N.2)	27,000		
To Net Profit transferred to P & L Appropriation A/c	<u>2,25,000</u>		
	<u>2,76,000</u>		<u>2,76,000</u>

2. Commission of Firm's Accountant

$$= \frac{\text{Profit after salary of firm's accountant}}{(100+12)\%} \times 12\%$$

$$= \frac{(2,76,000 - 24,000)}{(100+12)\%} \times 12\% = ₹ 27,000$$

3. Interest on Drawings

		₹
Good (at the beginning of every month)	(₹ 2,000 x 6.5 x 8%)	1,040
Better (at the end of every month)	(₹ 1,750 x 5.5 x 8%)	770
Best (at the middle of every month)	(₹ 1,250 x 6 x 8%)	<u>600</u>
		<u>2,410</u>

4. Commission of Better

Commission of Better = [Net profit for appropriation (excluding interest on drawings) - General reserve - Interest on capital - Salaries to partners - Commission to Good and Best] x 15%

Commission to Better = ₹ [2,25,000 - 22,240 - 24,120 - 69,600 - 18,000 - 22,500] x 15%
 = ₹ 68,540 x 15% = ₹ 10,281

Question 12

X, Y and Z are partners sharing profits and losses in the ratio of 4:3:2 respectively. On 31st March, 2012 Y retires and X and Z decide to share profits and losses in the ratio of 5:3. Then immediately, W is admitted for 3/10th shares in profits, 2/3rd of which was given by X and rest was taken by W from Z. Goodwill of the firm is valued at ₹ 2,16,000. W brings required amount of goodwill.

Give necessary Journal Entries to adjust goodwill on retirement of Y and admission of W if they do not want to raise goodwill in the books of accounts.

Answer

Journal Entries

Date	Particulars	L.F.	Dr. (₹)	Cr. (₹)
31.3.12	X's capital A/c Dr. Z's capital A/c Dr. To Y's capital A/c (3/9 x ₹ 2,16,000) (Being Y's share of goodwill adjusted in the capital accounts of gaining partners in their gaining ratio 13:11 - Refer Working Note.)		39,000 33,000	72,000
	Cash A/c Dr. To W's capital A/c (3/10 x ₹ 2,16,000) (Being the amount of goodwill brought in by W)		64,800	64,800
	W's capital A/c Dr. To X's capital A/c To Z's capital A/c (Being the goodwill credited to sacrificing partners in their sacrificing ratio 2:1)		64,800	43,200 21,600

Working Note:

Calculation of gaining ratio of X and Z

$$\text{Gaining ratio} = \text{New ratio} - \text{Old ratio}$$

14.38 Accounting

$$\begin{aligned} \text{For X} &= 5/8 - 4/9 = 13/72 \\ \text{Z} &= 3/8 - 2/9 = 11/72 \\ \text{Gaining ratio} &= 13:11 \end{aligned}$$

Question 13

A and B are in partnership sharing profits and losses in the ratio of 3:2. The capitals of A and B are ₹ 80,000 and ₹ 60,000 respectively. They admit C as a partner who contributes ₹ 35,000 as capital for 1/5th share of profits to be acquired equally from both A & B. The capital accounts of old partners are to be adjusted on the basis of the proportion of C's capital to his share in the business. Calculate the amount of actual cash to be paid off or brought in by the old partners for the purpose and pass the necessary journal entries.

Answer

Share of profit taken from A and B each = $1/5 \times 1/2 = 1/10$ each

Calculation of New Profit Sharing Ratio

	A	B
Existing ratio	3/5	2/5
Less: Share of profit transferred to C	<u>(1/10)</u>	<u>(1/10)</u>
New share	<u>5/10</u>	<u>3/10</u>
New profit sharing ratio of A:B:C = 5/10 : 3/10 : 2/10		

Calculation of Total Capital of the Reconstituted Firm

Capital brought in by C for 1/5th share = ₹ 35,000

Total Capital = ₹ 35,000 x (5/1) = ₹ 1,75,000

Calculation of Actual Cash to be paid or brought in by old partners

	A	B	C
	(₹)	(₹)	(₹)
New capital of ₹ 1,75,000 distributed in the ratio 5:3:2	87,500	52,500	35,000

Cash brought in	<u>7,500</u>		<u>35,000</u>
Cash to be paid		<u>(7,500)</u>	

Journal Entries

Particulars	L.F.	Dr. Amount ₹	Cr. Amount ₹
Cash A/c	Dr.	7,500	
To A's Capital A/c			7,500
(Being the shortage of capital brought in cash by A)			

B's Capital A/c	Dr.	7,500

Note: Entries for cash brought in and paid off only, have been passed.

Question 14

Arun and Varun were partners sharing profits in the ratio of 13 : 11 respectively. On 1st April, 2012 they admitted Tarun as a new partner on the following conditions:

- (i) All partners would share profits equally in the new firm.
- (ii) Tarun would bring in ₹ 52,000 as his capital and ₹ 36,000 as his share of goodwill. No goodwill account appeared in the books of the firm at the time of Tarun's admission and it was decided not to open any goodwill account. Adjustment for Tarun's goodwill being made through capital accounts.

Pass journal entries to record all the transactions on Tarun's admission.

Clearly show the calculation of ratio of sacrifice.

Answer

Journal Entries on Tarun's admission

Year 2012		Dr. ₹	Cr. ₹	
1st April	Bank A/c	Dr. 88,000		
	To Tarun's Capital A/c (52,000 + 36,000)		88,000	
	(Being amount brought by Tarun towards his capital and share of goodwill)			
1st April	Tarun's Capital A/c	Dr. 36,000		
	To Arun's Capital A/c		22,500	
	To Varun's Capital A/c		13,500	
	(Being Tarun's share of goodwill in the firm ₹ 36,000, has been credited to the old partners in the sacrificing ratio 5:3)			

Note: In place of above entries, 'Premium on goodwill' or 'Goodwill A/c' may also be opened instead of 'Tarun's capital A/c', for share of goodwill brought by him in cash.

Working Note:

Calculation of Sacrificing Ratio

	Old Ratio	New Ratio	Sacrificing Ratio (Old - new)
Arun	13/24	1/3	(13/24 - 1/3) = 5/24
Varun	11/24	1/3	(11/24 - 1/3) = 3/24
Tarun	--	1/3	--

Therefore, sacrificing ratio is 5:3.

Question 15

Atul, Balbir and Chatur were carrying on a business in partnership sharing profits in the ratio of 5 : 3 : 2 respectively. On 31st March, 2012 their Balance Sheet stood as follows:

Liabilities	₹	Assets	₹	₹
Atul's Capital	6,25,000	Goodwill		80,000
Balbir's Capital	3,75,000	Land and Buildings		7,00,000
Chatur's Capital	2,50,000	Furniture		1,65,000

		Cash at Bank		1,52,600
Total	<u>15,60,000</u>	Total		<u>15,60,000</u>

Atul retired on the above mentioned date and partners agreed that :

- The current value of goodwill be taken to be equal to the book value of the asset.
- Land and Buildings be considered worth ₹ 9,00,000.
- The provision for bad debts on trade debtors be raised to 5%.
- Provision be made for compensation of ₹ 5,000 to an ex-employee.
- Half of the amount due to Atul be paid immediately in cash and the balance be treated as 10% loan, repayable within 3 years.

In order to facilitate cash payment to Atul, Balbir and Chatur brought in ₹ 3,00,000 in the ratio of 3 : 2 respectively.

Prepare Revaluation Account, the Capital Accounts of all the partners and Bank Account. Also draw the Initial Balance Sheet of Balbir and Chatur, immediately after Atul's retirement after writing off goodwill.

Question 1

"ERP package is gaining popularity in big organizations." Briefly explain the advantages and disadvantages of using an ERP package, in the light of above statement.

Answer

An ERP is an integrated software package that manages the business process across the entire enterprise.

Advantages of using an ERP

The advantages of using an ERP for maintaining accounts are as follows:

1. **Standardised processes and procedures:** An ERP is a generalised package which covers most of the common functionalities of any specific module.

15.2 Accounting

2. **Standardised reporting:** Majority of the desired reports are available in an ERP package. These reports are standardised across industry and are generally acceptable to the users.
3. **Duplication of data entry** is avoided as it is an integrated package.
4. **Greater information** is available through the package.

Disadvantages of an ERP

The disadvantages of an ERP are the following:

1. **Lesser flexibility:** The user may have to modify their business procedure at times to be able to effectively use the ERP.
2. **Implementation hurdles:** Many of the consultants doing the implementation of the ERP may not be able to fully appreciate the business procedure to be able to do a good implementation of an ERP.
3. **Very expensive :** ERP are normally priced at an amount which is often beyond the reach of small and medium sized organisation. However, there are some ERP coming into the market which are moderately priced and may be useful to the small businesses.
4. **Complexity of the software :** Generally an ERP package has large number of options to choose from. Further the parameter settings and configuration makes it a little complex for the common users.

Question 2

Explain the factors to be considered before selecting the pre-packaged accounting software.

Answer

There are many accounting softwares available in the market. To choose the accounting software appropriate to the need of the organization is a difficult task, some of the criteria for selection could be the following:

1. **Fulfillment of business requirements:** Some packages have few functionalities more than the others. The purchaser may try to match his requirement with the available solutions.
2. **Completeness of reports:** Some packages might provide extra reports or the reports match the requirements more than the others.
3. **Ease of Use:** Some packages could be very detailed and cumbersome compare to the others.
4. **Cost:** The budgetary constraints could be an important deciding factor. A package having more features cannot be opted because of the prohibitive costs.
5. **Reputation of vendor:** Vendor support is essential for any software. A stable vendor with good reputation and track records will always be preferred.
6. **Regular updates:** Law is changing frequently. A vendor who is prepared to give updates will be preferred to a vendor unwilling to give updates.

Question 3

What are the advantages of customised accounting packages?

Answer

Following are the advantages of the customised accounting packages:

1. The functional areas that would otherwise have not been covered get computerised.
2. The input screens can be tailor made to match the input documents for ease of data entry.
3. The reports can be as per the specification of the organisation. Many additional MIS reports can be included in the list of reports.
4. Bar-code scanners can be used as input devices suitable for the specific needs of an individual organisation.
5. The system can suitably match with the organisational structure of the company.

Question 4

"Recently a growing trend has developed for outsourcing the accounting function". Explain the advantages and disadvantages of outsourcing the accounting functions.

Answer

Recently a growing trend has developed for outsourcing the accounting function to a third party. The consideration for doing this is to save cost and to utilise the expertise of the outsourced party.

Advantages

1. **Saving of Time:** The organisation that outsources its accounting function is able to save time to concentrate on the core area of business activity.
2. **Expertise of the third party:** The organisation is able to utilise the expertise of the third party in undertaking the accounting work.
3. **Maintenance of data:** Storage and maintenance of the data is in the hand of professional people.
4. **Economical:** The organisation is not bothered about people leaving the organisation in key accounting positions. The proposition is proving to be economically and more sensible as they do not have to train the people again. Hence, the training cost is saved.

Disadvantages

1. **Lack of security & confidentiality:** The data of the organisation is handed over to a third party. This raises two issues, one of security and second of confidentiality. There have been instances of information leaking out of the third party data centres.
2. **Inadequate services provided :** The third party is unable to meet the standards desirable.
3. **High cost:** The *cost* may ultimately be higher than initially envisaged.

4. **Delay in obtaining services:** The third party service providers are catering to number of clients thereby processing as per priority basis.

Question 5

Write any four disadvantages of Pre-packaged Accounting Software.

Answer

Disadvantage of Pre-packaged Accounting Software:

1. *Lesser Flexibility: Business today is becoming more and more complex. A standard package may not be able to take care of these complexities i.e. it does not cover peculiarities of specific business. Therefore, customization may not be possible in such softwares.*
2. *Covers only few functional areas and only main reports are covered: Many pre-packaged accounting softwares do not cover all functional areas. For example, production process may not be covered by most pre-packaged accounting softwares. The demands for modern day business may make the management desire for several other reports for exercising management control. These reports may not be available in a standard package.*
3. *Lack of security: Any person can view data of all companies with common access password. Levels of access control as we find in many customised accounting software packages are generally missing in a pre-packaged accounting package.*
4. *Bugs in the software: Certain bugs may remain in the software which takes long time to be rectified by the vendor and is common in the initial years of the software.*

Question 6

"In business today, the accounts which were earlier maintained in a manual form, are replaced with computerized accounts". Explain the significance of computerized accounting system in modern time.

Answer

In modern time, computerized accounting systems are used in various areas. The significance of the computerized accounting system is as follows:

- (1) *Increase speed, accuracy and security - In computerized accounting system, the speed with which accounts can be maintained is several fold higher. Besides speed, level of accuracy is also high in computerized accounting system.*
- (2) *Reduce errors - In computerized accounting, the possibilities of errors are also very less unless some mistake is made while recording the data.*
- (3) *Immediate information - In this system, with an entry of a transaction, corresponding ledger posting is done automatically. Hence, trial balance will also be automatically tallied and the user will get the information immediately.*
- (4) *Avoid duplication of work - Computerized accounting systems also remove the duplication of the work.*
